Consolidated Statement of Changes in Net Assets	187
Consolidated Statement of Cash Flows	189
Consolidated Financial Highlights	191
Notes to Consolidated Financial Statements	194
Report of Independent Registered Public Accounting Firm	225

All investors should consider the investment objectives, risks, charges and expenses of the Blackstone Alternative Multi-Strategy Fund (the “Fund”) carefully before investing. The prospectus and the summary prospectus contain this and other information about the Fund. You can obtain a prospectus and a summary prospectus from the Fund’s website (www.bxmix.com). All investors are urged to carefully read the prospectus and the summary prospectus in its entirety before investing. Interests in the Fund are offered through Blackstone Securities Partners L.P., (the “Distributor” or “BSP”) a member of FINRA and an affiliate of Blackstone Alternative Investment Advisors LLC, the Fund’s investment adviser (“BAIA” or the “Investment Adviser”).

Important Risks: An investment in the Fund should be considered a speculative investment that entails substantial risks; you may lose part or all of your investment or your investment may not perform as well as other investments. The Fund’s investments involve special risks including, but not limited to, loss of all or a significant portion of the investment due to leveraging, short-selling, or other speculative practices lack of liquidity and volatility of returns. The following is a summary description of certain additional principal risks of investing in the Fund:

Allocation Risk - BAIA’s judgment about the attractiveness, value or market trends affecting a particular asset class, investment style, sub-adviser or security may be incorrect and this may have a negative impact upon performance. *Debt Securities Risk* - investments in debt securities, such as bonds and certain asset backed securities involve certain risks which may cause the securities to lose value, including credit risk, liquidity risk, extension risk, interest rate risk, prepayment risk, event risk, inflation risk, and variable and floating rate instrument risk. *Derivatives Risk* - the use of derivatives involves the risk that their value may not move as expected relative to the value of the relevant underlying assets, rates, or indices. Derivatives can be volatile and illiquid, can subject to counterparty credit risk, and may entail investment exposure greater than their notional amount. *Distressed Securities Risk* - investments in securities of business enterprises involved in workouts, liquidations, reorganizations, bankruptcies and similar situations involve a high degree of risk of loss since there is typically substantial uncertainty concerning the outcome of such situations. *Equity Securities Risk* - there is a risk of loss associated with price fluctuations of equity and preferred securities which change based on a company’s financial condition and overall market and economic environment. *Event-Driven Trading Risk* - involves the risk that the specific event identified may not occur as anticipated and that this may have a negative impact upon the market price of the securities involved. *Foreign Investments/Emerging Markets Risk* - involves special risks caused by foreign political, social and economic factors, including exposure to currency fluctuations, less liquidity, less developed and less efficient trading markets, political instability and less developed legal and auditing standards. *High Portfolio Turnover Risk* - active trading of securities can increase transaction costs (thus lowering performance) and taxable distributions. *Inflation Risk* - Inflation, and investors’ expectation of future inflation, can impact the current value of portfolio investments, resulting in lower asset values and losses to Fund investors. *Investment Style Risk* - Different investment styles tend to shift in and out of favor depending on market and economic conditions and investor sentiment, and the Fund could underperform other funds that invest in similar asset classes but employ different investment styles.

Large Purchase and Redemption Risk - large purchase or redemption activity could result in the Fund incurring additional costs, selling portfolio securities, investing cash, or holding a relatively large amount of cash at times when it would not otherwise do so, which could have an adverse effect on performance.

Leverage Risk - use of leverage can produce volatility and may exaggerate changes in the net asset value of Fund shares and in the return on the Fund's portfolio, which may increase the risk that the Fund will lose more than it has invested.

Liquidity Risk - some securities held by the Fund, including, but not limited to, restricted, distressed, non-exchange traded, and/or privately placed securities, may be difficult to sell, or illiquid, particularly during times of market turmoil. Illiquid securities may be difficult to value and if the Fund is forced to sell an illiquid asset to meet redemption requests or other cash needs, the Fund may be forced to sell at a loss.

Market Risk and Selection Risk - one or more markets in which the Fund invests may go down in value, possibly sharply and unpredictably, affecting the values of individual securities held by the Fund. Significant shocks to or disruptions of the financial markets or the real economy could adversely affect the liquidity and volatility of securities held by the Fund.

Mortgage- and Asset-Based Securities Risk - these securities are subject to credit, interest rate, valuation, liquidity, prepayment and extension risks. These securities also are subject to risk of default on the underlying mortgage or asset, particularly during periods of economic downturn. Small movements in interest rates may quickly and significantly reduce the value of certain mortgage-backed securities.

Model and Technology Risk - involves the risk that model-based strategies, data gathering systems, order execution and trade allocation systems and risk management systems may not be successful on an ongoing basis or could contain errors, omissions, imperfections or malfunctions.

Multi-Manager Risk - managers may make investment decisions which conflict with each other and as a result, the Fund could incur transaction costs without accomplishing any net investment result.

Footnote Legend:

- [^] A balance indicated with a "0", reflects either a zero balance or an amount that rounds to less than 1.
- (a) Non-income producing.
- (b) Security is held by a consolidated wholly-owned subsidiary of Blackstone Alternative Multi-Strategy Fund.
- (c) Security is exempt from registration pursuant to Regulation S under the Securities Act of 1933, as amended. Security may only be offered or sold outside of the United States unless registered under the Securities Act of 1933, as amended, or otherwise exempt from registration.
- (d) Security is exempt from registration pursuant to Rule 144A under the Securities Act of 1933, as

See Notes to Consolidated Financial Statements.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Consolidated Schedule of Investments [^] (Continued)

March 31, 2025

amended. Security may only be sold to qualified institutional buyers unless registered under the Securities Act of 1933, as amended, or otherwise exempt from registration.

- (e) Security is valued using significant unobservable inputs.
- (f) Variable/Floating interest rate security. Certain variable/floating interest rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities may not indicate a reference rate and spread in their description above. Rate presented is as of March 31, 2025.
- (g) Represents a step-up bond. Coupon rate increases in increments to maturity. Rate presented is as of March 31, 2025. Maturity date presented is the ultimate maturity.
- (h) Security is an Interest Only (IO) bond, which represents the “interest only” portion of payments on a pool of underlying mortgages or mortgage-backed securities. IO securities are subject to prepayment risk of the pool of underlying mortgages.
- (i) Non-interest bearing bond.
- (j) All or a portion of the security represents an unsettled loan commitment at March 31, 2025 where the rate will be determined at time of settlement.
- (k) Security is currently in default due to bankruptcy or failure to make payment of principal or interest.
- (l) Security is perpetual in nature and has no stated maturity.
- (m) All or a portion of this security is pledged as collateral in connection with reverse repurchase agreements.
- (n) A portion of this security is purchased on a when-issued, delayed-delivery or forward commitment basis.
- (o) Security is restricted per Rule 12-12.8 of Regulation S-X. First acquisition dates of Aeolus Property Catastrophe Keystone PF Fund LP, Atreides Co., Asgard Fixed Income Risk Premia Fund, Rokos Global Macro Fund Ltd. and Kirkoswald Global Ltd., 1/2/2019, 7/1/2021, 8/2/2021, 9/1/2021 and 5/1/2024. Amounts to \$391,664,172 and represents 10.6% of Net Assets.
- (p) Repurchase agreements may additionally have cash collateral held to meet collateral requirements.
- (q) Open repurchase agreement with no specific maturity date. Either party may terminate the agreement upon demand.
- (r) Assets, other than investments in securities, less liabilities other than securities sold short.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements

For the Year Ended March 31, 2025

1. Organization

Blackstone Alternative Investment Funds (the “Trust”) is a Massachusetts business trust authorized to issue an unlimited number of shares of beneficial interest, which may be divided into different series and classes. The Trust is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”). During the year ended March 31, 2025, the Trust consisted of a single series, Blackstone Alternative Multi-Strategy Fund (the “Fund”). The Fund commenced operations offering Class I Shares on June 16, 2014. The Fund also offers Class D Shares, Class Y Shares and Class R Shares. Class D Shares and Class Y Shares commenced operations on November 17, 2014 and January 28, 2015, respectively. As of March 31, 2025, the Fund had not issued any Class R Shares. The Fund operates as a diversified open-end investment company as defined in the 1940 Act.

The investment adviser of the Fund is Blackstone Alternative Investment Advisors LLC (“BAIA” or the “Investment Adviser”), a registered investment adviser under the Investment Advisers Act of 1940, as amended. The Board of Trustees (the “Board” and each member a “Trustee”) of the Trust supervises the conduct of the Fund’s affairs and has engaged BAIA to manage the Fund’s day-to-day investment activities pursuant to an investment management agreement. The Fund’s investment objective is to seek capital appreciation. In pursuing the Fund’s investment objective, the Investment Adviser seeks to maintain an investment portfolio with, on average, lower volatility relative to the broader equity markets. The Investment Adviser seeks to achieve the Fund’s objective principally by allocating the Fund’s assets among a variety of non-traditional or alternative investment strategies. The Investment Adviser allocates the Fund’s assets among sub-advisers with experience managing non-traditional or alternative investment strategies (the “Sub-Advisers”) and among investment funds generally employing alternative investment strategies. The Investment Adviser also manages a portion of the Fund’s assets directly and, from time to time, may instruct Sub-Advisers with respect to particular investments. The Investment Adviser may retain discretionary and non-discretionary Sub-Advisers for the Fund. Each discretionary Sub-Adviser is responsible for the day-to-day management of the portion of the Fund’s assets that the Investment Adviser allocates to it. Each non-discretionary Sub-Adviser implements its investment strategy in coordination with the Investment Adviser in the Investment Adviser’s discretion. The Investment Adviser has the responsibility to oversee each Sub-Adviser (subject to the ultimate oversight of the Fund’s Board). The Investment Adviser also is responsible for recommending the hiring, termination, and replacement of Sub-Advisers.

The Fund’s assets may be invested in one or more of its three wholly-owned and controlled subsidiaries of the Fund (collectively, the “Subsidiaries”), each of which has the same investment objective as the Fund. One of the Fund’s Subsidiaries, Blackstone Alternative Multi-Strategy Sub Fund II Ltd. (the “Cayman Subsidiary”), is a Cayman Islands exempted company. Both of the other Subsidiaries, Blackstone Alternative Multi-Strategy Sub Fund III L.L.C. (the “Domestic Subsidiary III”) and Blackstone Alternative Multi-Strategy Sub Fund IV L.L.C. (the “Domestic Subsidiary IV”), are Delaware limited liability companies. The Cayman Subsidiary invests, directly or indirectly through the use of derivatives, in securities, commodities, and other assets. The Domestic Subsidiary III and the Domestic Subsidiary IV invest, directly or indirectly through the use of derivatives, almost entirely in securities. The Consolidated Financial Statements include the Financial Statements of the Fund and the three Subsidiaries. Except where context otherwise requires, the term “Fund” refers to the Fund together with the applicable Subsidiaries.

The Fund and the Cayman Subsidiary are each a commodity pool under the Commodity Exchange Act (“CEA”) and are subject to regulation by the Commodity Futures Trading Commission (“CFTC”). BAIA, the commodity pool operator of the Fund and the Cayman Subsidiary, is registered as such with the CFTC, but has claimed relief under Rules 4.12(c)(3) and 4.7 under the CEA, respectively, from certain disclosure, reporting, and recordkeeping requirements otherwise applicable to commodity pools. Neither the Domestic Subsidiary III nor the Domestic Subsidiary IV intends to invest more than a de minimis level of its net assets

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

in “commodity interests” (as defined under the CEA). Accordingly, BAIA is relying on CFTC No-Action Letter 12-38 with respect to the Domestic Subsidiary III and has claimed an exemption under Rule 4.13(a)(3) from registration as a commodity pool operator with respect to the Domestic Subsidiary IV.

Capitalized terms used, but not defined herein, shall have the meaning assigned to them in the Prospectus of the Fund.

2. Basis of Presentation

The Fund’s Consolidated Financial Statements are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and are stated in U.S. dollars, except as otherwise noted. The preparation of Consolidated Financial Statements in accordance with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of income and expenses during the period. Actual results could differ from these estimates and these differences could be material.

The Fund is an investment company in accordance with Accounting Standards Codification 946, *Financial Services — Investment Companies* (“ASC 946”), which defines investment companies and prescribes specialized accounting and reporting requirements for investment companies.

Consolidation

The Fund consolidates its investment in the Subsidiaries. Accordingly, the Consolidated Financial Statements include the assets and liabilities and the results of operations and cash flows of the Subsidiaries. All material intercompany balances and transactions have been eliminated.

3. Significant Accounting Policies

Valuation Policy

The net asset values (“NAV”) of the Fund’s shares are calculated as of the close of regular trading on the New York Stock Exchange (“NYSE”) (generally 4:00 pm Eastern Time) on each day that the NYSE is open for business (a “Business Day”).

For purposes of calculating the NAV for each class of shares, the Fund values its investments in securities, securities sold short, derivative financial instruments and other investments at market value if market quotations are readily available, and otherwise at fair value as determined in good faith by the Board of the Fund, or its designee. The Board has delegated the day to day responsibility for valuing portfolio securities, derivative financial instruments, and other investments, including investments in private funds (the “Valuation Process”) to the Custodian and has delegated responsibility for the supervision of the Custodian’s implementation of the Valuation Process to the Investment Adviser. In accordance with Rule 2a-5 under the 1940 Act, the Board has designated the Investment Adviser as the “valuation designee” of the Fund. Each of the Board and the Investment Adviser has established procedures for determining the value of the Fund’s portfolio securities, including securities sold short, derivative financial instruments and other investments (together, the “investments”) (together, the “Valuation Procedures”). Pursuant to the Valuation Procedures, if market quotations are not readily available (or are otherwise not reliable for a particular investment), the fair value will be determined, in good faith by the Investment Adviser, acting in its capacity as the valuation designee under Rule 2a-5 of the 1940 Act. Due to the inherent uncertainty, estimates of fair value may differ from the values that would have been used had a ready market for these investments existed and the differences could be material.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

A market quotation is “readily available” only when that quotation is a quoted price (unadjusted) in active markets for identical investments that the Fund can access at the measurement date, provided that a quotation will not be “readily available” if it is not reliable. Accordingly, a security will not be considered to have readily available market quotations if its value is not determined solely by reference to Level 1 inputs in the fair value hierarchy outlined in U.S. GAAP, including where events occur after the close of the relevant market, but prior to the close of the NYSE, that materially affect the value of the Fund’s investments. In addition, market quotes are considered not readily available when, due to extraordinary circumstances, the exchanges or markets on which securities trade do not open for trading for the entire day and no other market prices are available. The Board has delegated to the Investment Adviser the responsibility for monitoring significant events that may materially affect the values of the Fund’s investments and for determining whether the value of the applicable investments should be re-evaluated in light of such significant events.

Fair Value Measurements

Fair value guidance defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. U.S. GAAP defines fair value as the price that the Fund would receive to sell an asset or pay to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for investments categorized in Level 3. The inputs or methodology used for valuing an investment are not necessarily an indication of the risk associated with investing in those securities.

Investments measured and reported at fair value are classified and disclosed in one of the following levels within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement:

Level 1 – quoted prices are available in active markets for identical investments as of the measurement date. The Fund does not adjust the quoted price for these investments.

The types of investments categorized within Level 1 generally include actively traded domestic and certain foreign equity securities, short-term investments and derivative financial instruments actively traded on recognized exchanges.

Level 2 – quoted prices are available in markets that are not active or model inputs are based on inputs that are either directly or indirectly observable as of the measurement date.

The types of investments categorized within Level 2 generally include certain foreign equities; fixed income securities including corporate and convertible bonds, loans, trade claims, sovereign debt obligations, U.S. Treasury obligations, and asset-backed and mortgage-backed securities; over-the-counter (“OTC”) derivative financial instruments such as total return swaps, interest rate swaps, credit default swaps, OTC options; and forward foreign currency exchange contracts (“Forwards”).

Level 3 – pricing inputs are unobservable and include instances where there is little, if any, market activity for the investment. Inputs reflect the best estimate of what market participants would use in determining fair value of investments as of the measurement date.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

Changes in valuation techniques may result in transfers in or out of an investment's assigned level within the fair value hierarchy.

Level 3 investments are valued by broker quotes, fair value models, or pricing services that may employ valuation techniques with unobservable inputs. At March 31, 2025, the total fair value of Level 3 investments was \$49,376,381. The appropriateness of fair values for these securities are monitored on an ongoing basis, including through backtesting, pricing due diligence, unchanged price review, use of specialists, and consideration of macro security specific events.

The significant inputs and assumptions required to determine the change in fair value of the investments of the Fund are discussed in more detail below.

A description of the valuation techniques applied to the Fund's major categories of investments measured at fair value on a recurring basis are as follows:

Exchange-Traded Securities

Equity securities, including common stock, listed preferred stock, exchange-traded funds, special purpose acquisition companies, and derivative financial instruments, such as futures contracts and option contracts, that are traded on a recognized securities exchange or on the NASDAQ Global Market System ("NASDAQ") are valued at the last reported sales price (or the official closing price of certain foreign exchanges) or the NASDAQ official closing price, as applicable. For securities traded on more than one exchange, the last reported sales price on the exchange where the security is primarily traded is used. To the extent these securities and derivative financial instruments are actively traded and adjustments are not applied, they are categorized as Level 1 within the fair value hierarchy.

The Fund may use a third-party fair valuation service provider to value foreign equity securities that are primarily traded outside of North America and South America. The third-party fair valuation service provider calculates a factor ("Fair Value Factor") that is applied to adjust the last price of each such security in the event that there is movement in excess of a specified trigger, as measured by the movement between the prior close and the current close of the U.S. market. Foreign equities for which the last price has been adjusted by such factor will generally be categorized as Level 2 within the fair value hierarchy. As of March 31, 2025, Fair Value Factor was applied to such securities.

Short-Term Investments

The Fund considers short-term, highly liquid investments with original maturities of 90 days or less when acquired to be short-term investments.

Derivative Financial Instruments

OTC derivative financial instruments, such as Forwards, OTC options contracts, or swap agreements, derive their value from underlying referenced instruments or obligations, indices, reference rates, and other inputs or a combination thereof. These contracts are normally valued by pricing service providers or based on broker-dealer quotations. Depending on the nature of the instruments and the terms of the transaction, the value of OTC derivative financial instruments can be estimated by a pricing service provider using a series of techniques, including industry standard pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, spreads, yield curves, dividends and exchange rates. Derivative financial instruments that use similar valuation techniques and inputs as described above are categorized as Level 2 within the fair value hierarchy.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

Centrally cleared swaps listed or traded on a multilateral or trade facility platform, such as a registered exchange, are valued at the daily settlement price determined by the clearing exchange. For centrally cleared credit default swaps, the clearing facility requires its members to provide actionable levels across complete term structures. These levels along with external third-party prices are used to produce daily settlement prices. Centrally cleared interest rate swaps are valued using a pricing model that references the underlying rates to produce the daily settlement price. These securities are categorized as Level 2 within the fair value hierarchy.

Fixed Income Securities

Fixed income securities, including corporate and convertible bonds, U.S. government sponsored agency securities, municipal bonds, U.S. Treasury obligations, foreign debt obligations, and bank debt are normally valued by pricing service providers on the basis of last available bid price. In determining the value of a particular investment, pricing service providers may use broker-dealer quotations, reported trades, or valuation estimates from their internal pricing models to determine the reported price that consider observable inputs. The pricing service providers' internal models use observable inputs such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Securities that use similar valuation techniques and inputs as described above are categorized as Level 2 within the fair value hierarchy.

Mortgage-related securities ("MBS") and asset-backed securities ("ABS") are usually issued as separate tranches, or classes, of securities within each deal. These securities are also generally valued by pricing service providers that use broker-dealer quotations or valuation estimates from their internal pricing models. The pricing models for these securities usually consider tranche-level attributes, current market data, estimated cash flows and market-based yield spreads for each tranche, and in corporate deal collateral performance, as available. MBS and ABS that use similar valuation techniques and inputs as described above are categorized as Level 2 within the fair value hierarchy.

Investments in Investee Funds

The fair value of investments in unaffiliated investment funds (collectively, the "Investee Funds") is generally determined using the reported NAV per share of the Investee Fund, or its equivalent, as a practical expedient for fair value, unless the investment in the Investee Fund is traded on a recognized securities exchange and a quoted price is available as of the measurement date. If the Investee Fund is not traded on an exchange, the Fund may, as a practical expedient, estimate the fair value of an Investee Fund based on the reported NAV per share or its equivalent if the reported NAV per share or its equivalent of the Investee Fund is calculated in a manner consistent with the measurement principles applied to investment companies, in accordance with ASC 946. If the Investee Fund does not provide a reported NAV per share or its equivalent on a Business Day, the Investment Adviser shall estimate fair value in good faith and in a manner consistent with the Valuation Procedures.

Securities and Other Investments

Bank Debt

The Fund may invest in bank debt including, for example, corporate loans, trade claims, loan participations, direct debt, revolvers, bank loans, and bridge loans. The Fund invests in loans through novations, assignments, and participation interests. In a novation, the Fund typically assumes all of the rights of a lending institution, including the right to receive payments of principal and interest and other amounts directly from the borrower and to enforce its rights as a lender directly against the borrower. When the Fund takes an assignment of a loan, the Fund acquires some or all of the interest of another lender (or assignee) in

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

the loan. In such cases, the Fund may be required generally to rely upon the assignor to demand payment and enforce rights under the loan. If the Fund acquires a participation in the loan, the Fund purchases an indirect interest in a loan held by a third-party and the Fund typically will have a contractual relationship only with the third-party loan investor, not with the borrower. As a result, the Fund may have the right to receive payments of principal, interest, and any fees to which it is entitled only from the loan investor selling the participation and only upon receipt by such loan investor of such payments from the borrower. In such cases, the Fund assumes the credit risk of both the borrower and the loan investor selling the participation, and the Fund may be unable to realize some or all of the value of its interest in the loan in the event of the insolvency of the third-party. Changes in the financial condition of the borrower or economic conditions or other circumstances may reduce the capacity of the borrower to make principal and interest payments on such instruments and may lead to defaults. Certain types of bank debt may have an associated partially funded or unfunded commitment. The unfunded commitments may or may not be funded by the Fund. At March 31, 2025, the Fund did not have any outstanding unfunded commitments.

Mortgage-Related and Other Asset-Backed Securities

The Fund may invest in MBS (residential and commercial) and other ABS. These securities include mortgage pass-through securities, collateralized mortgage obligations, commercial mortgage-backed securities, residential mortgage-backed securities, collateralized debt obligations, collateralized loan obligations, and other securities that directly or indirectly represent a participation in, or are secured by and payable from, mortgage loans on real property. MBS and other ABS represent interests in pools of mortgages, loans or other assets. MBS are created from pools of residential or commercial mortgage loans, including loans made by savings and loans institutions, mortgage bankers, commercial banks and others. These securities typically provide a monthly payment that consists of principal and/or interest payments. Interest payments may be determined by fixed or adjustable rates. MBS and ABS are subject to credit, interest rate, valuation liquidity, prepayment and extension risks.

Securities Sold Short

The Fund may sell securities short (a “Short Sale”). A Short Sale is a transaction whereby the Fund sells securities it does not own in anticipation of a decline in the market price of those securities, whereby the Fund’s broker will execute a borrow transaction to deliver the securities resulting from the Fund’s Short Sale. The Fund is obligated to repurchase the securities at the market price at the time of replacement. The Fund’s obligations to replace the securities in connection with a Short Sale are secured by collateral.

Upon entering into a Short Sale, the Fund establishes a liability which is recorded as securities sold short on the Consolidated Statement of Assets and Liabilities to represent securities due under the Short Sale agreement. The Fund is liable to pay any dividends declared and/or interest income earned during the period the Short Sale is open. These dividends and interest are recorded as dividend and interest expense on securities sold short in the Consolidated Statement of Operations.

Commodities

The Fund is permitted to invest in California Carbon Allowances (“CCAs”) or futures on CCAs, which are generally treated as commodity interests in this report. CCAs and other allowances (collectively, “Allowances”) are valued according to their vintage based on market price or the number of Allowances delivered during the valuation month. ICE Futures U.S., Inc. (“ICE”) will serve as the primary pricing source. When early vintage Allowances no longer have readily observable market prices from ICE, they will be valued using prices for later vintage Allowances. ICE lists widely-traded futures contracts for the Allowance market. These contracts result in the delivery of an Allowance at expiry. The ICE CCA contracts

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

permit delivery of Allowances issued by California or any linked program (at this time Quebec and Ontario). Trading in these futures contracts are subject to ICE's market rules. ICE lists separate CCAs by vintage (e.g., 2022 Vintage, 2023 Vintage and 2024 Vintage). The most traded ICE CCA contracts allow delivery of the indicated vintage or an earlier vintage; hence a 2022 Vintage Allowance can be delivered against the 2023 Vintage Contract. This flexibility means futures contracts on earlier vintages are usually more liquid than, and worth at least as much as, later vintages.

Repurchase Agreements

The Fund may invest in repurchase agreements, which are short term investments whereby the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future date at a specified price. When entering into repurchase agreements, it is the Fund's policy that the repurchase agreement be fully collateralized and that its custodian take possession of the underlying collateral securities. The repurchase counterparty has the ability to request additional collateral depending on the market value of the collateral security compared to the principal amount of the repurchase transaction in line with the agreement. To the extent that any repurchase transaction exceeds one Business Day, the value of the collateral is marked-to-market to ensure the adequacy of the collateral. If the seller defaults and the market value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited. The information required to be disclosed by FASB Accounting Standards Update ("ASU") No. 2011-11 for the Fund's investments in repurchase agreements as of March 31, 2025, including the fair value of the repurchase agreement and the amount of collateral, can be found in the Fund's Consolidated Schedule of Investments.

Reverse Repurchase Agreements

The Fund may enter into reverse repurchase agreements. In a reverse repurchase agreement, the Fund sells a security in exchange for cash to a financial institution, the counterparty, with a simultaneous agreement to repurchase the same or substantially the same security at an agreed upon price and date, under the terms of a Master Repurchase Agreement ("MRA"). The Fund is entitled to receive principal and interest payments, if any, made on the security delivered to the counterparty during the term of the agreement. Cash received in exchange for securities delivered plus accrued interest payments to be made by the Fund to counterparties is reflected as a liability. Reverse repurchase agreements involve the risk that the market value of the securities purchased with the proceeds from the sale of securities received by the Fund may decline below the price of the securities the Fund is obligated to repurchase. Reverse repurchase agreements also involve credit risk with the counterparty to the extent that the value of securities subject to repurchase exceeds the Fund's liability under the reverse repurchase agreement. Securities subject to repurchase under reverse repurchase agreements, if any, are designated as such in the Consolidated Schedule of Investments. Due to the short term nature of the reverse repurchase agreements, face value approximates fair value. As of March 31, 2025, the face value of open reverse repurchase agreements for the Fund was \$13,974,134. The weighted average daily balances of reverse repurchase agreements outstanding for the Fund during the year ended March 31, 2025 was approximately \$25,041,442, at a weighted average weekly interest rate of 5.27%.

An MRA contains provisions for, among other things, initiation, income payments, events of default and maintenance of securities for repurchase agreements. An MRA also permits offsetting with collateral to create one single net payment in the event of default or similar events, including the bankruptcy or insolvency of a counterparty. The Fund may not use reverse repurchase agreements and related collateral governed by an MRA to offset derivatives contracts and related collateral governed by an ISDA (see Note 4) or securities lending agreements ("SLA") and related collateral governed by an SLA (see Securities Lending below).

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

The following tables present the reverse repurchase agreements, which are subject to enforceable MRAs, as well as the collateral delivered related to those reverse repurchase agreements by class of collateral and summarized by the remaining contractual maturity of the transactions.

Counterparty	Reverse Repurchase Agreement	Fair Value of Non-Cash Collateral ^{(1),(2)}	Cash Collateral Pledged ⁽¹⁾	Net Amount ⁽³⁾
Citigroup Global Markets Limited	\$(14,110,133)	\$14,110,133	\$—	\$—

- (1) Additional required collateral pledged is not shown for financial reporting purposes. The total fair value of non-cash and cash collateral received at March 31, 2025 was \$15,021,250 and \$2,877,000, respectively.
- (2) The total fair value of non-cash collateral in the table above includes securities valued at \$14,110,133 that have been pledged and received as collateral on a reverse repurchase agreement.
- (3) Net amount represents the net receivable (payable) that would be due from/to the counterparty in the event of default.

Remaining Contractual Maturity of the Agreements As of March 31, 2025				
Overnight and Continuous	< 30 days	Between 30 & 90 days	> 90 days	Total
Sovereign Debt	\$—	\$—	\$—	\$(14,110,133)
Total	\$—	\$—	\$—	\$(14,110,133)
Gross amount of recognized liabilities for reverse repurchase agreements				\$(14,110,133)

Investment Transactions and Related Investment Income

Investment transactions are recorded as of the trade date. Dividend income is recorded on the ex-dividend date or, for certain foreign securities, as of the date notified. Interest income, which includes amortization of premiums and accretion of discounts on non-defaulted fixed income securities, is recorded on an accrual basis and is accrued daily. Realized gains and losses on investments are determined on the identified cost basis, which is the same basis used for federal income tax purposes. Foreign income and foreign capital gains on some foreign securities may be subject to foreign taxes, which are accrued as applicable.

Allocation of Income and Expenses

The Fund uses the adjusted prior day net assets for each class of shares, adjusted for capital activity, to allocate Fund-level income and expenses and unrealized capital gains and losses pro-rata to each class of shares. Class-specific income and expenses are allocated directly to the applicable class.

Cash

At March 31, 2025, the Fund had \$575,921,682 in domestic cash and \$9,242,662 in foreign cash held at State Street Bank and Trust Company ("State Street"). These balances, at year end, exceeded insured limits.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

Foreign Currency

The functional currency of the Fund is the U.S. dollar. Assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the closing prices of such currencies on each Business Day. Purchases and sales of investments and income and expenses are translated on the respective dates of such transactions or when accrued. The Fund does not isolate the portion of realized or unrealized gains or losses resulting from changes in the foreign exchange rate on investments from fluctuations arising from changes in the fair value of the investments. Such gains and losses are included with net realized and unrealized gain or loss on investments. Net realized gains and losses on foreign currency transactions represent net realized exchange gains or losses on disposition of foreign currencies and currency gains and losses realized between trade and settlement dates on investment transactions. Net unrealized appreciation and depreciation of assets and liabilities, other than investments, attributable to foreign currency fluctuations are recorded as net unrealized appreciation or depreciation on foreign currency translations in the Consolidated Statement of Operations.

Contingencies

Under the Trust's Amended and Restated Agreement and Declaration of Trust, the Fund's officers and Trustees are indemnified against certain liabilities that may arise out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund may enter into contracts that contain a variety of representations and indemnifications. To date, the Fund has not had claims or losses pursuant to these contracts, although there is no assurance that it will not incur losses in connection with these indemnifications in the future.

Income Taxes

The Fund's policy is to comply with the provisions of the Internal Revenue Code of 1986, as amended (the "Code"), applicable to regulated investment companies and to distribute all of its investment company taxable income and net long-term capital gains to its shareholders. Therefore, no federal income tax provision is expected to be required. The Fund plans to file U.S. federal and various state and local tax returns.

For the current open tax years ending on October 31, 2021, October 31, 2022, and October 31, 2023, with respect to all major jurisdictions, management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the Consolidated Financial Statements. As a result, no income tax liability or expense, including interest and penalties, has been recorded within these Consolidated Financial Statements.

Dividends and Distributions to Shareholders

Dividends from net investment income and distributions of net realized capital gains of the Fund, if any, are generally declared and paid in December; however, the Fund may make additional distributions at other times consistent with Rule 19b-1 under the 1940 Act. Dividends and capital gain distributions paid by the Fund will be reinvested in additional Shares (see Note 11) of the Fund or, if elected by the Shareholder, paid in cash.

Value-at-Risk and Collateralization

Rule 18f-4 under the 1940 Act applies to the Fund's use of derivative investments and certain financing transactions. As required by Rule 18f-4, the Fund has adopted and implemented a derivatives risk management program governing its use of derivatives through, among other things, the application of a value-at-risk based limit to the Fund's derivatives exposure. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, the Fund may have requirements to deliver/deposit securities to/with an exchange or broker-dealer as collateral for certain investments to the extent consistent with the 1940 Act and interpretive positions of the SEC and its staff.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

The Fund may mitigate counterparty risk in part by procuring collateral and through netting provisions included within an International Swaps and Derivatives Association, Inc. Master Agreement (“ISDA Master Agreement”) entered into between the Fund and each of its respective counterparties. An ISDA Master Agreement may contain certain provisions regarding, among other things, the parties’ general obligations, representations, agreements, collateral requirements, events of default and early termination. Certain ISDA Master Agreements, or similar agreements, may allow the Fund to offset certain derivative financial instruments with collateral. At March 31, 2025, the Fund used the gross method of presentation in its Consolidated Financial Statements and did not elect to offset amounts eligible for offset under enforceable master netting arrangements or similar agreements (“MNA”). The segregated cash balance with counterparties for OTC derivatives disclosed on the Consolidated Statement of Assets and Liabilities include amounts for various derivative types which are comingled per the Fund’s ISDA Master Agreements. These amounts are shown gross. The amount of collateral moved to/from applicable counterparties is generally based upon minimum transfer amounts of up to \$250,000. Collateral pledged by the Fund is segregated by the Fund’s custodian and identified as such in the Fund’s portfolio. Collateral can be in the form of cash or securities as agreed to by the Fund and the applicable counterparty. Typically, the Fund and counterparties are not permitted to sell, repledge or use the collateral they receive unless explicitly permitted by each respective governing agreement.

The Fund manages counterparty risk in part by entering into agreements only with counterparties that the Investment Adviser believes to have the financial resources to honor its obligations and by monitoring the financial stability of those counterparties. The agreements entered into by the Fund may contain credit risk related contingent features that may be triggered in certain circumstances to protect either party from a deterioration in creditworthiness of the other. Such circumstances may include a decrease in credit rating or, in the case of the Fund, a decrease in NAV. If triggered, the Fund or counterparty may be entitled to additional cash margin and/or to terminate the contract. See Note 9 for a further discussion of some of the risks of the Fund, including credit and counterparty risk.

Securities Lending

The Fund may lend securities, through its agent, to certain qualified financial institutions. The loans are collateralized by cash in an amount at least equal to the market value of the securities loaned. The market value of securities loaned is determined daily and any additional required collateral is allocated to the Fund on the next Business Day. The initial collateral received by the Fund should have a value of at least 102% of the current value of loaned securities for U.S. securities and at least 105% for all other securities. The Fund will bear the risk of loss with respect to the investment of the cash collateral, as well as the possible loss of right to the collateral should the borrower fail financially. The advantage of such loans is that the Fund continues to receive income on loaned securities while earning returns on the cash amounts which may be reinvested for the purchase of investments in securities. As of March 31, 2025, there were no securities on loan.

The SLA entered into by the Fund provides the right, in the event of default, for the non-defaulting party to liquidate the collateral and calculate a net exposure to the defaulting party or request additional collateral. Under the agreement, the Fund can reinvest cash collateral.

When-Issued and Delayed-Delivery Transactions

The Fund may engage in when-issued or delayed-delivery transactions. The Fund records when-issued or delayed-delivery securities on the trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed-delivery basis are marked-to-market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

The Fund may transact in to-be announced securities (“TBAs”). As with other delayed-delivery transactions, a seller agrees to issue TBAs at a future date. However, the seller does not specify the particular securities to be delivered. Instead, the Fund agrees to accept any security that meets specified terms such as issuer, interest rate and terms of underlying mortgages. The Fund records TBAs on the trade date utilizing information associated with the specified terms of the transaction as opposed to the specific mortgages. TBAs are marked-to-market daily and begin earning interest on the settlement date. Losses may occur due to the fact that the actual underlying mortgages received may be less favorable than those anticipated by the Fund.

Restricted Securities

The Fund may purchase securities which are considered restricted. Restricted securities are securities that cannot be offered for public sale without first being registered under the Securities Act of 1933, as amended, or are subject to contractual restrictions on public sales. Many such restricted securities may be resold in the secondary market in transactions exempt from registration. The Fund will not incur any registration costs upon such resales. The Fund cannot demand registration of restricted securities. The Fund’s restricted securities, like other securities, are priced in accordance with the Valuation Procedures. Restricted securities are identified in the Consolidated Schedule of Investments.

Operating Segments

The Fund adopted FASB ASU 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures. Operating segments are defined as components of a business that can earn revenues and incur expenses for which discrete financial information is available that is evaluated on a regular basis by the chief operating decision maker, or CODM. The Fund’s CODM is, collectively, the Co-Presidents and Treasurer and Principal Financial and Accounting Officer. A single management team reports to the CODM, who manages the entire business.

The CODM has concluded the Fund operates as a single operating segment since the Fund has a single investment strategy as disclosed in the Prospectus, against which the CODM decides how to allocate resources and assess performance.

Segment assets are reflected in the Fund’s Consolidated Statements of Assets and Liabilities as net assets, which consists primarily of investments at fair value, and significant segment expenses are listed in the accompanying Consolidated Statements of Operations.

Recently Issued Accounting Pronouncements

In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740) - Improvement to Income Taxes Disclosures, which enhances the transparency of income tax disclosures. The ASU 2023-09 requires public entities, on an annual basis, to provide disclosure of specific categories in the rate reconciliations, as well as disclosure of income taxes paid disaggregated by jurisdiction. The amendments under this ASU are required to be applied prospectively and are effective for fiscal years beginning after December 15, 2024. Management expects that adoption of the guidance will not have a material impact on the Fund’s financial statements.

4. Derivative Financial Instruments

In the normal course of business, the Fund enters into derivative financial instrument contracts for trading and/or economic hedging purposes to increase the returns of the Fund or to help manage certain risks such as credit risk, equity risk, interest rate risk, foreign currency exchange risk or other risk (e.g., inflation risk). These contracts may be transacted on a recognized exchange or OTC. The following disclosures contain information on how the Fund uses derivative financial instruments. The derivative financial instruments outstanding as of year end are disclosed in the Consolidated Schedule of Investments.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

Forward Foreign Currency Exchange Contracts

The Fund may enter into Forwards to obtain investment exposure, seek to enhance return or hedge or protect its portfolio holdings against the risk of future movements in certain foreign currency exchange rates. Forwards are agreements between two parties to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed upon future date. The market value of a Forward fluctuates with the changes in foreign currency exchange rates. These contracts are valued daily and the change in market value is recorded as an unrealized gain or loss on Forwards. When a contract is closed, the Fund recognizes a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The use of Forwards does not eliminate fluctuations in the underlying prices of the securities of the Fund, but it does establish a rate of exchange that can be achieved in the future. Although Forwards may limit the risk of loss due to a decline in the value of the currency holdings, they also limit any potential gain that might result should the value of the currency increase. In addition, the Fund could be exposed to losses if the counterparties to the contracts are unable to meet the terms of the contracts. The Fund's maximum potential loss from such contracts is the aggregate face value in U.S. dollars at the time the contract was opened. These contracts involve market and/or credit risk in excess of the amount recognized in the Consolidated Statement of Assets and Liabilities.

Futures Contracts

The Fund may enter into futures contracts to maintain investment exposure to a target asset class or to seek to enhance return. The Fund may be subject to fluctuations in equity prices, interest rates, commodity prices and foreign currency exchange rates in the normal course of pursuing its investment objective. Futures contracts are standardized agreements to buy or sell a security or deliver a final cash settlement price in connection with an index, interest rate, currency, or other asset. The Fund must deposit an amount ("initial margin") equal to a certain percentage of the face value of the futures contract. The initial margin may be in the form of cash or securities which is returned when the Fund's obligations under the contract have been satisfied. If cash is deposited as the initial margin, it is shown as segregated cash balance with broker for futures contracts in the Consolidated Statement of Assets and Liabilities. Futures contracts are marked-to-market daily and subsequent payments ("variation margin") are made or received by the Fund depending on whether unrealized gains or losses are incurred. When the contract is closed or expires, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The potential risk to the Fund is that the change in value of futures contracts may not correspond to the change in the value of the hedge investments. In addition, losses may arise from changes in the value of the underlying instrument, if interest or exchange rates move unexpectedly or if the counterparty is unable to perform. With futures, there is minimal counterparty credit risk to the Fund since futures are exchange traded and the exchanges' clearinghouse, as counterparty to all exchange traded futures, guarantees the futures against default.

Options Contracts

The Fund may purchase and write call and put options. An option contract purchased by the Fund gives the Fund the right, but not the obligation, to buy (call) or sell (put) an underlying instrument at a fixed exercise price during a specified period. Call options written by the Fund give the holder the right to buy the underlying instrument from the Fund at a fixed exercise price; put options written by the Fund give the holder the right to sell the underlying instrument to the Fund at a fixed exercise price. The Fund may use options to hedge against changes in values of securities or currencies it owns or expects to own, to gain or to maintain exposure to interest rates, currencies or broad equity markets, to generate additional income or to enhance returns.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

Options trading involve certain additional risks. Specific market movements of the option and the instruments underlying the option cannot be predicted. No assurance can be given that a liquid secondary market will exist for any particular option or at any particular time. The Fund might not be able to enter into a closing transaction for the option as a result of an illiquid market for the option. To realize any profit in the case of an option, therefore, the option holder would need to exercise the option and comply with margin requirements for the underlying instrument. A writer could not terminate the obligation until the option expired or the writer was assigned an exercise notice. The purchaser of an option is subject to the risk of losing the entire purchase price of the option. The writer of an option is subject to the risk of loss resulting from the difference between the premium received for the option and the price of the futures contract underlying the option that the writer must purchase or deliver upon exercise of the option. The writer of a naked option may have to purchase the underlying contract in the market for substantially more than the exercise price of the option in order to satisfy his delivery obligations. This could result in a large net loss.

Equity, foreign currency or index options that may be purchased or sold by the Fund may include options not traded on a securities exchange. The risk of nonperformance by the counterparty on such option may be greater and the ability of the Fund to enter into a closing transaction with respect to such option may be less than in the case of an exchange traded option.

The Fund may purchase or write interest rate swaption agreements, which are options to enter into a predefined swap agreement by some specific date in the future. The writer of the swaption becomes the counterparty to the swap if the buyer exercises. The interest rate swaption agreement will specify whether the buyer of the swaption will be a fixed-rate receiver or a fixed-rate payer upon exercise.

Purchases of put and call options are recorded as investments, the value of which are marked-to-market daily. When a purchased option expires without being exercised, the Fund will realize a loss equal to the premium paid. When the Fund enters into a closing sale transaction, the Fund will realize a gain or loss depending on whether the sales proceeds from the closing sale transaction are greater or less than the premium initially paid for the option. When the Fund exercises a put option, it will realize a gain or loss from the sale of the underlying instrument and the proceeds from such sale will be decreased by the premium originally paid for the put option. When the Fund exercises a call option, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid for the call option. Realized gains and losses on purchased options are included in realized gains and losses on investments.

The premium received for a written option is recorded as an asset and an equivalent liability. The liability is marked-to-market daily in accordance with the option's valuation policy. When a written option expires without being exercised or the Fund enters into a closing purchase transaction, the Fund realizes a gain (or loss if the cost of the closing purchase transaction exceeds the premium received when the option was sold) without regard to any unrealized gain or loss on the underlying instrument and the liability related to such option is eliminated. When a written call option is exercised, the Fund realizes a gain or loss, as adjusted for the premium received, from the sale of the underlying instrument. When a written put option is exercised, the premium received is offset against the amount paid for the purchase of the underlying instrument.

Swap Agreements

The Fund may enter into total return, interest rate, credit default, variance and volatility swap agreements ("Swaps"). Swaps are bilaterally negotiated agreements between the Fund and a counterparty in which the Fund and counterparty agree to make either periodic net payments on a specified notional amount or a net payment upon termination. Swaps are privately negotiated in the OTC market or may be executed in a multilateral or other trade facility platform, such as a registered exchange or swap execution facility ("centrally cleared swaps"). The Fund may enter into Swaps for the purposes of managing exposure to

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

interest rate, credit or market risk, or for other purposes. In connection with these agreements, securities or cash (“segregated cash” or “collateral”) may be paid or received, as applicable, by the Fund as collateral or margin in accordance with the terms of the respective Swaps to provide assets of value and recourse in the event of default or bankruptcy/insolvency. Securities posted by the Fund as collateral for swaps are identified in the Consolidated Schedule of Investments and segregated cash, if any, is reflected in the Consolidated Statement of Assets and Liabilities.

Swap transactions involve, to varying degrees, elements of interest rate, credit and market risk in excess of the amounts recognized in the Consolidated Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform, or that there may be unfavorable changes in market conditions or interest rates. In addition, entering into Swaps involves documentation risk resulting from the possibility that the parties to a Swap may disagree as to the meaning of contractual terms in the agreement. The Fund’s maximum risk of loss from counterparty credit risk is the discounted value of the net cash flows to be received from the counterparty over the contract’s remaining life, to the extent that amount is positive, or the fair value of the contract. The risk may be mitigated by having an MNA between the Fund and the counterparty and by the posting of collateral by the counterparty to cover the Fund’s exposure to the counterparty.

Interest Rate Swaps: The Fund may enter into OTC and/or centrally cleared interest rate swap contracts to hedge interest rate risk, to gain exposure on interest rates and to hedge prepayment risk. The Fund is subject to interest rate risk exposure in the normal course of pursuing their investment objectives. The Fund may hold fixed rate bonds, and the value of these bonds may decrease if interest rates rise. Interest rate swaps are agreements in which one party pays a stream of interest payments, either fixed or floating rate, for another party’s stream of interest payments, either fixed or floating, on the same notional amount for a specified period of time. The Fund’s maximum risk of loss from counterparty credit risk, as opposed to investment and other types of risk, in respect of interest rate swaps is typically the discounted net value of the cash flows to be received from the counterparty over the contracts remaining life, to the extent that amount is positive.

Interest rate swaps can be purchased or sold with an upfront premium. An upfront payment received by the Fund is recorded as a liability and an upfront payment made by the Fund is recorded as an asset in the Consolidated Statement of Assets and Liabilities. Interest rate swaps are marked-to-market daily and any change is recorded as an unrealized gain or loss on swaps. Daily fluctuations in the value of centrally cleared interest rate swaps are recorded as a receivable or payable for variation margin on the Fund’s Consolidated Statement of Assets and Liabilities. Payments, including upfront premiums, received or made are recorded as realized gains or losses at the closing of the contract.

Total Return Swaps: The Fund may enter into total return swaps to obtain exposure to a security, index, market or other basket of securities without owning such security or investing directly in that security, index, market or other basket of securities or to transfer the risk/return of one market (e.g., fixed income) to another market (e.g., equity) (equity risk and/or interest rate risk). Total return swaps are agreements in which one party agrees to make periodic payments to another party based on the change in market value of the underlying instrument, which may include a specified security, index, basket of securities or securities indices during the specific period, in return for periodic payments based on a fixed or floating rate or the total return from other underlying assets. To the extent the total return of the instrument underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Fund will receive a payment from or make a payment to the counterparty. Total return swaps can also be structured without an interest payment, so that one party pays the other party if the value of the underlying instrument increases and receives payment from the other party if the value of the underlying asset decreases.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

The Fund may utilize total return swaps on baskets of securities (“Basket Swaps”) to a significant extent in order to obtain synthetic exposure to investment strategies. For a Basket Swap, the Fund or a Subsidiary makes payments to a counterparty (at either a fixed or variable rate) in exchange for receiving from the counterparty payments that reflect the return of a “basket” of securities, derivatives, and/or commodity interests identified by the Sub-Adviser (or the Investment Adviser). The Fund may also utilize structured notes (“Basket Notes”) in which the Fund or a Subsidiary purchases a note from an issuer in exchange for receiving from the issuer payments that reflect the return of an account through which the Sub-Adviser (or the Investment Adviser) manages a portfolio reflecting a basket of securities, derivatives, and/or commodity interests. The Sub-Adviser (or the Investment Adviser) will select and manage the securities, derivatives, and/or commodity interests underlying the Basket Swap or the Basket Note in a manner consistent with the Fund’s strategies. The Fund’s investment returns on Basket Swaps or Basket Notes generally will correspond to the Fund’s returns had the Sub-Adviser managed the notional equivalent of the Fund’s assets directly (although returns on Basket Swaps or Basket Notes will be reduced by financing charges and trading costs incurred by the Basket Swap counterparty or Basket Note issuer). The Fund may obtain a significant portion of its investment exposure through Basket Swaps and/or Basket Notes.

Credit Default Swaps: The Fund may enter into OTC and/or centrally cleared credit default swap contracts to hedge credit risk, to hedge market risk, or to gain exposure on single-name issuers and/or baskets of securities.

In a credit default swap contract, the protection buyer typically makes an upfront payment and a periodic stream of payments to a counterparty, the protection seller, in exchange for the right to receive a contingent payment upon the occurrence of a credit event on the reference obligation or all other equally ranked obligations of the reference entity. Credit events are contract specific but may include bankruptcy, failure to pay, restructurings and obligation acceleration. An upfront payment received by the Fund or made by the Fund is recorded as a liability or asset respectively, in the Consolidated Statement of Assets and Liabilities. Periodic payments received or paid by the Fund are recorded as realized gains or losses. Credit default swap contracts are marked-to-market daily and the change is recorded as an unrealized gain or loss on swaps. Upon the occurrence of a credit event, the difference between the par value and the market value of the reference obligation, net of any proportional amount of upfront payment, is recorded as a realized gain or loss on swaps.

Variance Swaps: A variance swap is a negotiated contract used to hedge or speculate on the magnitude of a price movement of an underlying asset, which can include exchange rates, interest rates, commodity price or the price of an index, i.e. the variance is the difference between an expected result and the actual result.

Volatility Swaps: A volatility swap is a negotiated contract with a payoff based on the realized volatility of an underlying asset where the realized amount is the difference between the realized volatility and the volatility strike or predetermined fixed volatility level.

Interest rate swaps, total return swaps, credit default swaps, variance swaps, and volatility swaps outstanding at period end are listed at the end of the Fund’s Consolidated Schedule of Investments.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

At March 31, 2025, the Fund had the following derivative financial instruments, presented on a gross basis and categorized by risk exposure:

	Asset Derivatives		Liability Derivatives	
	Consolidated Statement of Assets & Liabilities Location	Fair Value	Consolidated Statement of Assets & Liabilities Location	Fair Value
Interest	Centrally cleared swaps, at fair value ¹	\$ 5,821,777	Centrally cleared swaps, at fair value ¹	\$ (1,626,798)

			<u>\$(43,138,768)</u>	<u>\$(31,778,582)</u>

¹ Averages are based on monthly activity levels during the year ended March 31, 2025.

² Includes purchased options that are part of investments in securities as shown in the Consolidated Statement of Assets and Liabilities and net realized gain on investments in securities and net unrealized appreciation on investments in securities as shown in the Consolidated Statement of Operations.

Netting Arrangements

The Fund enters into ISDA Master Agreements that contain MNAs that provide for payment netting and, in the case of default or similar event with respect to the counterparty to the MNA, can provide for netting across transactions. Generally, upon counterparty default, the Fund can terminate all transactions under the MNA and set-off amounts it owes across all transactions under a particular MNA and against collateral under such MNA. The Fund may not use derivatives contracts and related collateral governed by an ISDA to offset reverse repurchase agreements and related collateral governed by an MRA or SLAs and related collateral governed by an SLA (see Note 3).

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

The Fund has MNAs, which allows certain derivative financial instruments and collateral with the same counterparty to be offset to minimize counterparty credit exposure. The following table presents information related to derivative financial instruments and collateral related to securities loaned that are subject to an enforceable MNA and are not offset, as shown in the Consolidated Statement of Assets and Liabilities as of March 31, 2025.

The following table represents the Fund's derivative financial instrument assets and liabilities by counterparty net of amounts available for offset under an MNA and net of related collateral received/pledged by the Fund as of March 31, 2025:

	Gross Amounts Not Offset in the Consolidated Statement of Assets and Liabilities

Investments in Investee Funds that are measured at fair value using NAV as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Consolidated Financial Statements.

Investments in Investee Funds that are non-redeemable or subject to other restrictions such as a lockup at the measurement date or have the ability to limit the individual amount of investor redemptions shall be classified as having a redemption restriction.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

The following table summarizes investments in Investee Funds, by investment strategy, the unfunded commitment of each strategy (if applicable), and the amount of the investment in Investee Fund that cannot be redeemed because of redemption restrictions put in place by the Investee Fund.

Investments in Investee Funds by Strategy	Unfunded Commitment \$	Non-Redeemable Investments (A)		Other Restricted Investments (B)		Investments Subject to No Restrictions	Total \$
		Amount \$	Redemption Restriction Commencement Date	Amount \$	Redemption Restriction Term	Amount \$	
Event-Driven ⁽¹⁾	N/A	5,218,492	N/A	14,741,736	Semi-Annual	—	19,960,228
Macro Strategies ⁽²⁾	N/A	N/A	N/A	165,189,483	Monthly with 90 days' notice	—	165,189,483
Macro Strategies ⁽²⁾	N/A	N/A	N/A	164,054,610	Daily with 6 days' notice	—	164,054,610
Macro Strategies ⁽²⁾	N/A	N/A	N/A	42,459,851	Monthly with 60 days' notice	—	42,459,851

⁽¹⁾ The Event-Driven strategy generally includes Investee Funds that seek returns by investing in strategies including catalyst events, share class arbitrage, share buybacks, post re-organization equity, recapitalizations, spin-offs and stub trades.

⁽²⁾ The Macro Strategies strategy generally includes Investee Funds with a focus on opportunistic and strategic allocations across asset classes including but not limited to bonds, rates, currencies and commodities.

(A) Investments in Investee Funds cannot currently be redeemed and the remaining redemption restriction period is not known. The date the redemption restriction commenced is disclosed when known.

(B) Investments subject to other restrictions include investments in Investee Funds that are subject to a lockup at the measurement date and/or have the ability to limit the individual amount of investor redemptions. The redemption restriction term is based on the restriction period (or range of restriction periods) for Investee Funds as defined in each respective Investee Fund's governing legal agreement without consideration of the length of time elapsed from the date of investments in Investee Funds. The Fund's investment in a particular Investee Fund classified within the strategies above may be comprised of investments with differing liquidity terms or investments that were made at differing points in time.

The Fund recognizes transfers within the fair value hierarchy as of the beginning of the period. Transfers into and out of Level 3 were primarily related to the availability of broker quotations in accordance with the Fund's valuation methodology.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

The changes in investments measured at fair value for which the Fund used Level 3 inputs to determine fair value are as follows:

Valuation Description	Beginning Balance as of March 31, 2024	Transfers In	Transfers Out	Purchases	Sales	Amortization	Net Realized gain (loss)	Net change in unrealized appreciation (depreciation)	Balance as of March 31, 2025	Unrealized Gain/(Loss) as of March 31, 2025

6. Purchase and Sale of Fund Shares

The Fund currently offers Class D Shares, Class I Shares, Class R Shares and Class Y Shares. During the year ended March 31, 2025, only Class D Shares, Class I Shares and Class Y Shares were outstanding.

The Fund’s Class D Shares are offered primarily through broker-dealers and other financial intermediaries with whom the Distributor has an agreement for the use of the Fund in investment products, programs, or accounts such as mutual fund supermarkets or other no transaction fee platforms. The Fund’s Class I Shares are offered to institutional investors and individual investors who are clients of financial intermediaries, broker-dealers, financial institutions or registered investment advisors that: have entered into an arrangement approved by the Distributor to provide certain administrative services to investors in the Fund’s Class I Shares. Shareholders of Class I Shares may be subject to additional advisory, administrative, servicing, account-level or other fees in addition to those described in the Fund’s Prospectus, which are paid to financial intermediaries to support the additional services they may provide. The Fund’s Class Y Shares are offered for institutional investors and individuals (including through individual retirement accounts) who purchase directly from the Fund. Class Y Shares may also be offered to employees, officers and directors/ trustees of the Investment Adviser, the Fund or their respective affiliates. In addition, Class Y Shares are offered for institutional investors and individuals who are clients of financial intermediaries, broker-dealers, financial institutions, or registered investment advisors that have entered into an arrangement approved by the Distributor and do not charge a fee to the Fund. The minimum investment in Class D Shares by an investor is \$10,000, and the minimum subsequent investment in Class D Shares by an investor is \$1,000. The minimum investment in Class I Shares by an investor is \$100,000, and the minimum subsequent investment in Class I Shares by an investor is \$10,000. Class Y Shares have no investment minimum requirements. The Fund’s Class R Shares have no minimum investment requirement and are generally available only to special benefit plans.

Shares of the Fund may be purchased or redeemed at NAV each Business Day.

7. Investment Adviser Fees and Other Transactions with Affiliates

Pursuant to the investment management agreement between the Investment Adviser and the Trust, on behalf of the Fund, the Fund pays the Investment Adviser a management fee (the “Fund Management Fee”) at an annual rate based on the Fund’s average daily net assets, excluding the net assets of the applicable Subsidiaries. The Fund Management Fee accrues daily in arrears and is paid quarterly. The Investment Adviser receives additional compensation at an annual rate based on each Subsidiary’s average daily net assets for providing management services to the Subsidiaries. For collective net assets of the Fund and the respective Subsidiaries up to \$2.5 billion, the Fund Management Fee is calculated at a rate of 1.95%, and for collective net assets greater than or equal to \$2.5 billion, the Fund Management Fee is calculated at a rate of

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

1.80%. During the year ended March 31, 2025, the Fund paid the Investment Adviser \$70,463,979 in management fees. From this amount, the Investment Adviser paid \$44,257,156 in sub-advisory fees to non-affiliated Sub-Advisers with respect to the Fund, which amounted to 1.19% of the Fund's average daily net assets. The Investment Adviser paid, in the aggregate, \$3,073,813 in sub-advisory fees with respect to the Fund to Blackstone Real Estate Special Situations Advisors L.L.C., Blackstone Liquid Credit Strategies LLC, and Harvest Fund Advisors LLC, each an indirect wholly-owned subsidiary of Blackstone and an affiliate of the Investment Adviser, which amounted to 0.08% of the Fund's average daily net assets.

Sub-Advisory Fees

Pursuant to the sub-advisory agreements between the Investment Adviser and the Sub-Advisers, the Sub-Advisers are compensated for the services they provide to the Fund by the Investment Adviser from the Fund Management Fee received by the Investment Adviser.

Distribution and Service Fees

Pursuant to the amended and restated Distribution and Service Plan, the Fund's Class D Shares bear distribution and service fees at an annual rate of 0.25% of the average daily net assets of the Fund attributable to Class D Shares. Payments of the distribution and service fee may be made without regard to expenses actually incurred. The Distributor may pay all or a portion of the distribution and/or service fee to brokers, dealers, selling agents, other financial institutions, or other industry professionals (collectively, "intermediaries") for distribution services, sales support services, personal services, and/or the maintenance of shareholder account services provided and related expenses incurred by such intermediaries. The Fund's Class I Shares, Class Y Shares and Class R Shares are not subject to distribution and service fees.

Expense Limitation and Reimbursement

The Investment Adviser has entered into an Expense Limitation and Reimbursement Agreement with the Fund to limit the amount of Specified Expenses (as defined below) of the Fund to 2.40% per annum of the Fund's net assets for Class D Shares, Class I Shares and Class Y Shares and 2.55% per annum of the Fund's net assets for Class R Shares (collectively, the "Total Expense Cap") (computed and applied on a monthly basis). Specified Expenses include all expenses incurred by the Fund with the exception of (i) distribution or servicing fees, (ii) acquired fund fees and expenses, (iii) brokerage and trading costs, (iv) interest payments (including any interest expenses, commitment fees, or other expenses related to any line of credit of the Fund), (v) taxes, (vi) dividends and interest on short positions, and (vii) extraordinary expenses (in each case as determined in the sole discretion of BAIA). As of March 31, 2025 the Fund has recorded a receivable from the Investment Adviser of \$899,576.

To the extent the estimated annualized Specified Expenses for any month exceed the Total Expense Cap, the Investment Adviser will waive its fees and/or reimburse the Fund for expenses to the extent necessary to eliminate such excess. The Investment Adviser may discontinue its obligations under the Expense Limitation and Reimbursement Agreement at any time in its sole discretion after August 31, 2027 upon written notice to the Fund. This agreement cannot be terminated prior to August 31, 2027 without the Board's consent. The Fund has agreed to repay the amounts borne by the Investment Adviser under the Expense Limitation and Reimbursement Agreement within the thirty-six month period after the Investment Adviser bears the expense, to the extent the estimated annualized Specified Expenses for a given month are less than the lower of the Total Expense Cap or any expense limitation agreement then in effect with respect to the Fund. The repayment may not raise the level of estimated annualized Specified Expenses in the month of repayment to exceed the Total Expense Cap or any other expense limitation agreement then in effect. During the three-year period ended March 31, 2025, there were no repayments or potential repayments to the Investment Adviser.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

Related Party Transactions

Blackstone Holdings Finance Co. L.L.C. (“FINCO”), an affiliate of the Fund, pays certain expenses on behalf of the Fund. The Fund reimburses FINCO for such expenses paid on behalf of the Fund. FINCO does not charge any fees for providing such administrative services. At the year ended March 31, 2025, the Fund has an amount payable to FINCO of \$1,834,523.

Blackstone Alternative Asset Management L.P. (“BAAM”), an affiliate of the Fund, pays certain expenses on behalf of the Fund. The Fund reimburses BAAM for such expenses paid on behalf of the Fund. BAAM does not charge any fees for providing such administrative services. At the year ended March 31, 2025, the Fund has an amount payable to BAAM of \$558,306.

Blackstone Administrative Services Partnership L.P. (“BASP”), an affiliate of the Fund, pays certain expenses on behalf of the Fund. The Fund reimburses BASP for such expenses paid on behalf of the Fund. BASP does not charge any fees for providing such administrative services. At the year ended March 31, 2025, the Fund has an amount payable to BASP of \$31,304.

The Investment Adviser utilizes technology offered by Arcesium LLC (“Arcesium”) to provide certain middle- and back-office services to the Fund, and the Fund bears the costs for such services. The parent company of a Sub-Adviser owns a controlling, majority interest in Arcesium and the Investment Adviser owns a non-controlling, minority interest in Arcesium. At the year ended March 31, 2025, the amounts related to Arcesium are included in the amount payable to FINCO and BAAM.

8. Other Agreements

State Street Bank serves as the administrator, custodian and transfer agent to the Fund. U.S. Bank National Association (“U.S. Bank”) serves as custodian for certain of the Fund’s securities, commodities, cash, and other property. BSP, an affiliate of the Investment Adviser, serves as the Fund’s distributor.

9. Principal Investment Risks

The investment program of the Fund entails substantial risks and includes alternative investment and trading strategies not employed by traditional mutual funds. An investor may lose part or all of their investment and/or their investment may not perform as well as other similar investments. An investment in the Fund should be viewed only as part of an overall investment program. No assurance can be given that the Fund’s investment program will be successful. The following is a summary description of some, but not all, of the principal risks of investing in the Fund, including the indirect risks associated with the Fund’s investments in the Subsidiaries and Investee Funds. Any decision to invest in the Fund should be made after a review of the full set of principal risks in the Fund’s prospectus and should take into account that the Fund may make virtually any kind of investment, and be subject to related risks, which can be substantial. The relative significance of the principal risks identified below, at any given time, will vary depending on the specific composition of the Fund’s investment portfolio from time to time and the allocation of the Fund’s assets among the various investment strategies, which may change frequently and/or significantly over time. As applicable, references in these Risks to the “Fund” mean any one or more of the Fund, Subsidiaries, and Investments in Investee Funds, and references to a “Manager” mean any one or more of the Investment Adviser, Sub-Advisers, and advisers to the Investee Funds.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

Market Risk and Selection Risk. The Fund is subject to market risk and selection risk. Market risk is the risk that one or more markets in which the Fund invests will decline in value, including the possibility that the markets will decline sharply and unpredictably. While a Manager may make efforts to control the risks associated with market changes, and may attempt to identify changes as they occur, market environment changes can be sudden and extreme. Significant shocks to or disruptions of the financial markets or the economy, including those caused by bank closures, epidemics and pandemics, economic, natural, and man-made disasters, government action, rapid technological development, or significant geopolitical events, such as war, terrorism, sanctions, tariffs, or trade disputes could adversely affect the liquidity and volatility of securities held by the Fund and could increase the Fund's exposure to the other risks detailed in this report. Market environment changes may adversely affect the performance of a model and amplify losses. Selection risk is the risk that the investments held by the Fund will underperform the markets, the relevant indices, or the investments selected by other funds with similar investment objectives and investment strategies.

Counterparty Credit Risk. The stability and liquidity of many derivative and securities lending transactions depend in large part on the creditworthiness of the parties to the transactions. If a counterparty to such a transaction defaults, exercising contractual rights may involve delays or costs for the Fund. Furthermore, there is a risk that a counterparty could become the subject of insolvency proceedings, and that the recovery of the Fund's securities and other assets from such counterparty will be extinguished, delayed or be of a value less than the value of the securities or assets originally entrusted to such counterparty. At times, including when the Fund has entered into a Basket Swap, the Fund will have significant exposure to a single counterparty.

Liquidity Risk. Some securities held by the Fund, including, but not limited to, restricted, distressed, non-exchange traded, privately placed securities, and/or commodity-related investments may be difficult to sell, or illiquid, particularly during times of market turmoil. Investments in Investee Funds are often illiquid and some Investee Funds may not permit withdrawals or may make in-kind distributions of illiquid securities when the Fund desires to divest. Illiquid securities may be difficult to value. If the Fund is forced to sell an illiquid asset to meet redemption requests or for other cash needs, the Fund may suffer a loss.

Equity Securities Risk. Common and preferred stocks represent equity ownership in a company. Stock markets are volatile. The prices of equity securities will fluctuate and can decline and reduce the value of a portfolio investing in equities. The value of equity securities purchased by the Fund could decline if the financial condition of the companies the Fund invests in decline or if overall market and economic conditions deteriorate. They may also decline due to factors that affect a particular industry or industries, such as labor shortages or an increase in production costs and competitive conditions within an industry. In addition, they may decline due to general market conditions that are not specifically related to a company or industry, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or generally adverse investor sentiment.

Derivatives Risk. The use of derivatives involves the risk that their value may not move as expected relative to the value of the relevant underlying assets, rates, or indices. The Fund invests in derivatives for hedging and non-hedging purposes. Derivatives can be volatile and illiquid, are subject to counterparty credit risk, and may create investment exposure greater than the initial investment.

Structured Products Risk. Holders of structured products bear risks of the underlying investments, index, or reference obligation and are subject to counterparty credit, valuation, and liquidity risks. The Fund may have the right to receive payments only from the structured product, and generally does not have direct rights against the issuer or the entity that sold the assets to be securitized. Certain structured products may be thinly traded or have a limited trading market. In addition to the general risks associated with debt securities discussed herein, structured products carry additional risks, including, but not limited to: the possibility that distributions from collateral

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

securities will not be adequate to make interest or other payments; the quality of the reference securities may decline in value or default; the possibility that changes in the reference instrument will reduce the interest rate and principal amount payable on maturity; and the possibility that the position is subordinate to other classes. Structured notes are based upon the movement of one or more factors, including currency exchange rates, interest rates, referenced bonds and stock indices, and changes in interest rates and impact of these factors may cause significant price fluctuations. Additionally, changes in the reference instrument or security may cause the interest rate on the structured note to be reduced to zero. Structured products may be less liquid than other types of securities and more volatile than the reference instrument.

Inflation Risk. Inflation risk is the risk that the value of assets or income from investments will be less in the future as inflation decreases the value of money. Inflation, and investors' expectation of future inflation, can impact the current value of portfolio investments, resulting in lower asset values and losses to Fund investors. For example, wages and prices of inputs increase during periods of inflation, which can negatively impact returns on investments. In an attempt to stabilize inflation, countries may impose wage and price controls or otherwise intervene in the economy. Governmental efforts to curb inflation often have negative effects on the level of economic activity. This risk is elevated compared to historical market conditions because of recent monetary policy measures, the current interest rate environment, and the historically high prevailing inflation rates. Inflation rates may change frequently and drastically as a result of various factors, including unexpected shifts in the domestic or global economy, and the Fund's investments may not keep pace with inflation, which may result in losses to Fund investors or adversely affect the value of shareholders' investments in the Fund.

Risks Specific to Investments in Investee Funds. In addition to risks relating to their direct investments, Investee Funds often involve additional special risks not present in direct investments. Investors in the Fund bear two layers of fees and expenses at both the Fund level and the Investee Fund level. The Fund's investments in Investee Funds are priced, in the absence of readily available market values, based on estimates of fair value, which may prove to be inaccurate; these valuations are used to calculate fees payable to the Investment Adviser and the net asset value of the Fund's shares. The Investment Adviser is also dependent on information, including performance information, provided by the Investee Funds, which if inaccurate could adversely affect the Investment Adviser's ability to accurately value the Fund's shares. Some Investee Funds are not registered as investment companies under the 1940 Act, and therefore, the Fund is not able to avail itself of the protections of the 1940 Act with respect to such investments. Certain Investee Funds, including unaffiliated hedge funds and UCITS funds, are also subject to transfer or redemption restrictions that impair the liquidity of these investments, and some Investee Funds may suspend the withdrawal rights of their shareholders, including the Fund, from time to time. Incentive fees charged by advisors of Investee Funds also creates an incentive for such advisors to make investments that are riskier or more speculative than in the absence of these fees. To the extent an Investee Fund invests in a special situation investment (an investment in securities or other instruments that an Investee Fund determines to be illiquid or lacking a readily ascertainable fair value and which the Investee Fund designates as a special situation investment), the Fund's ownership interest with respect to such special situation investment generally may not be withdrawn until the special situation investment, or a portion thereof, is realized or deemed realized. The Fund also may purchase non-voting securities of, or to contractually forego the right to vote in respect of, Investee Funds in order to prevent the Fund from becoming an "affiliated person" of the Investee Fund for purposes of the 1940 Act and becoming subject to the prohibitions on transactions with affiliated persons contained in the 1940 Act. Consequently, the Fund will not be able to vote to the full extent of its economic interest on matters that require approval of investors in each Investee Fund, including matters that could adversely affect the Fund's investment.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

10. Investment Transactions

The aggregate cost of purchases and proceeds of sales of investments in securities (excluding short-term debt securities with maturities at the time of acquisition of one year or less (if applicable)), for the year ended March 31, 2025 were as follows:

	Purchases		Sales	
	Long-Term	U.S. Government	Long-Term	U.S. Government
Including TBAs	\$4,916,277,720	\$9,530,042,430	\$5,569,610,888	\$9,542,260,227
Excluding TBAs	\$4,916,277,720	\$ 162,941,121	\$5,569,610,888	\$ 158,481,418

11. Income Tax Information

The Fund intends to qualify each tax year as a regulated investment company under Subchapter M of the Code. The Fund has adopted a tax year-end of October 31, therefore the Consolidated Financial Statements, unless otherwise indicated, reflect tax adjusted balances as of October 31, 2024. The Fund intends to distribute substantially all of its net investment income and all of its net realized short-term and long-term capital gain, if any, after giving effect to any available capital loss carryforwards for U.S. federal income tax purposes. Therefore, the Fund makes no provision for U.S. federal income or excise taxes.

The Fund's policy is to declare and pay distributions from net investment income and from net realized short-term and long-term capital gain, if any, at least annually. All distributions are reinvested in additional shares of the Fund, at NAV, unless the shareholder elects to receive cash distributions. Distributions to shareholders are recorded by the Fund on the ex-dividend date.

The Fund is subject to authoritative guidance related to the accounting and disclosure of uncertain tax positions under U.S. GAAP. This guidance sets forth a minimum threshold for the financial statement recognition of tax positions taken based on the technical merits of such positions. United States and non-U.S. tax rules (including the interpretation and application of tax laws) are subject to change. The Fund files tax returns and/or adopts certain tax positions in various jurisdictions. Non-U.S. taxes are provided for based on the Fund's understanding of the prevailing tax rules of the non-U.S. markets in which they invest. Recently enacted tax rules, including interpretations of tax laws (e.g., regulations pertaining to the U.S. Foreign Account Tax Compliance Act) and proposed legislation currently under consideration in various jurisdictions, including the U.S., might affect the way the Fund and its investors are taxed prospectively and/or retroactively. Prior to the expiration of the relevant statutes of limitations, if any, the Fund is subject to examination by U.S. federal, state, local and non-U.S. jurisdictions with respect to the tax returns they have filed and the tax positions they have adopted. The Fund's U.S. federal income tax returns are generally subject to examination by the Internal Revenue Service for a period of three years after they were filed. State, local and/or non-U.S. tax returns and/or other filings may be subject to examination for different periods, depending upon the tax rules of each applicable jurisdiction.

The Fund made the following reclassification at March 31, 2025 due to permanent book and tax differences primarily attributable to gain or loss from passive foreign investment companies, certain derivative financial instrument transactions, and income from the wholly-owned Cayman Subsidiary as of its tax year ended October 31, 2024. The current year reclassification entry represents an out of period adjustment to correct the amounts recorded in the prior year which did not properly adjust to paid-in capital and distributable earnings/(loss).

Paid-in Capital

\$(954,499,581)

Distributable Earnings/(Loss)

\$954,499,581

Blackstone Alternative Multi-Strategy Fund and Subsidiaries

Notes to Consolidated Financial Statements (Continued)

For the Year Ended March 31, 2025

The tax basis components of distributable earnings of the Fund at their tax year-ended October 31, 2024 were:

<u>Undistributed Ordinary Income</u>	<u>Undistributed Long-Term Capital Gains</u>	<u>Capital Loss Carryforward¹</u>
\$126,858,290	\$—	\$(17,464,362)

- ¹ Under the Regulated Investment Company Modernization Act of 2010, net capital losses recognized by the Fund may get carried forward indefinitely, and retain their character as short-term and/or long-term losses. Any such losses, will be deemed to arise on the first day of the next taxable year. For the tax year ended October 31, 2024, short term and long term capital losses of \$0 and \$17,464,362 respectively, will be carried forward by the Fund.

In addition, the tax character of distributions paid to shareholders for the tax year-ended October 31, 2023 by the Fund is as follows:

<u>Ordinary Income</u>	<u>Long-Term Capital Gain</u>
\$—	\$—

In addition, the tax character of distributions paid to shareholders for the tax year-ended October 31, 2024 by the Fund is as follows:

<u>Ordinary Income</u>	<u>Long-Term Capital Gain</u>
\$137,081,360	\$—

The Fund made an ordinary income and capital gains distribution in the amounts of \$204,065,573 and \$0, respectively to shareholders in December 2024. The final tax character of that distribution will be determined after the Fund's October 31, 2025 tax year end.

As of March 31, 2025, the approximate cost for U.S. federal income tax purposes and gross and net unrealized appreciation (depreciation) in value of investments, securities sold short, and derivatives were as follows:

<u>Aggregate Cost</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized (Depreciation)</u>	<u>Net Unrealized Appreciation (Depreciation)</u>
\$1,756,707,050	\$298,967,783	\$(303,393,262)	\$(4,425,479)

12. Borrowings Under Credit Facility

As of March 31, 2025, the Fund had a secured revolving borrowing facility (the "Facility") with State Street Bank in an aggregate principal amount of up to \$400,000,000, subject to a maximum loan value of not more than 25% of the Fund's NAV (the "Aggregate Commitment Amount"). Borrowings under the Facility are used primarily for bridge financing purposes and are secured by the assets of the Fund. Under the terms of the agreement, the Aggregate Commitment Amount may be terminated or reduced from time to time upon written notice from the Fund to the State Street. Outstanding borrowings bear interest at a rate equal to 1.35% plus the Overnight Bank Funding Rate (4.33% at March 31, 2025). A commitment fee is charged in the amount of 0.25% per annum as well as an upfront underwriting fee equal to 0.10% of the Aggregate Commitment Amount per annum. Commitment fees accrued through the end of each calendar quarter are due no later than the 15th day of the immediately succeeding calendar month during the term of the Facility.

Blackstone Alternative Multi-Strategy Fund and Subsidiaries
Notes to Consolidated Financial Statements (Continued)
For the Year Ended March 31, 2025

Accrued interest is due no later than April 3, 2025, the termination date of the Facility at which time the Fund and the State Street can agree to extend the existing agreement. For the year ended March 31, 2025, the Fund borrowed \$10,000,000 under the Facility, incurring \$1,717 in interest. The borrowing was outstanding for one day.

13. Subsequent Events

The Investment Adviser has evaluated the impact of subsequent events through the date of financial statement issuance and determined there were no subsequent events outside the normal course of business requiring adjustment to or disclosure in the Consolidated Financial Statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the shareholders of Blackstone Alternative Multi-Strategy Fund and Subsidiaries and the Board of Directors of Blackstone Alternative Investment Funds

Opinion on the Financial Statements and Financial Highlights

We have audited the accompanying consolidated statement of assets and liabilities, including the consolidated schedule of investments, of Blackstone Alternative Multi-Strategy Fund and Subsidiaries, one of the portfolios constituting the Blackstone Alternative Investment Funds (the “Fund”), as of March 31, 2025, the related consolidated statements of operations and cash flows for the year then ended, the consolidated statements of changes in net assets for each of the two years in the period then ended, the consolidated financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of March 31, 2025, and the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included confirmation of securities owned as of March 31, 2025, by correspondence with the custodian, brokers and agent banks; when replies were not received from brokers and agent banks, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.
