

Blackstone Alternative Multi-Strategy Fund (BXMIX)

Blackstone

As of July 30, 2021

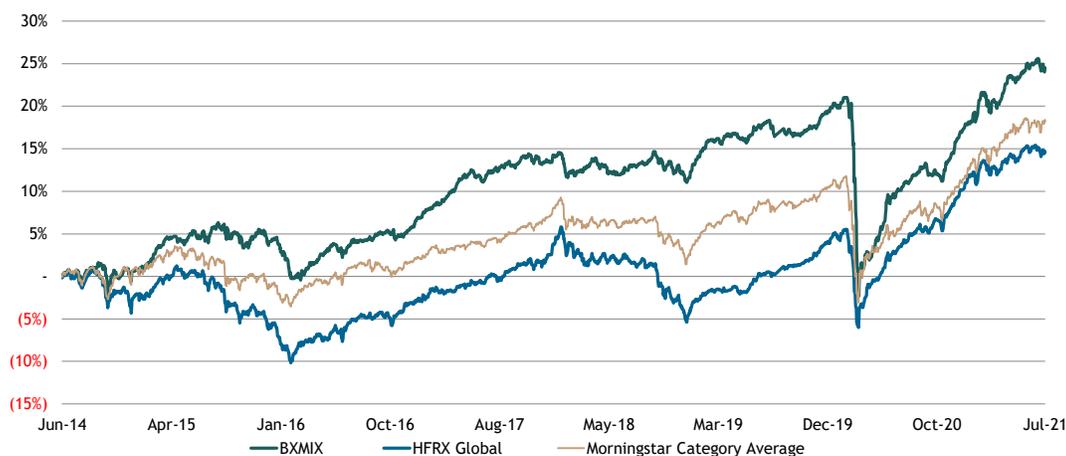

Investment Approach

Blackstone Alternative Multi-Strategy Fund's ("Fund") investment objective is to seek capital appreciation. The Fund seeks this objective by allocating its assets among a variety of non-traditional or "alternative" investment strategies. Blackstone allocates the Fund's assets among investment sub-advisers with experience managing alternative investment strategies and among Investment Funds and also manages a portion of the Fund's assets directly. In pursuing the Fund's investment objective, Blackstone seeks to maintain an investment portfolio with, on average, lower volatility relative to the broader equity markets.

1. Performance is presented through July 30, 2021. Returns are shown net of the Expense Ratio less waived expenses. Inception to date (ITD) returns for BXMIX are calculated on an annualized basis. Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance data quoted. Additional information and performance data current to the most recent month-end is available at www.bxmix.com.

2. All ITD statistics are calculated using daily performance since inception. All returns include dividend and capital gain distributions. Standard Deviation and Sharpe calculations are annualized. Beta and Alpha are measured to the respective index.

3. None of the indices presented are benchmarks or targets for the Fund. Indices are unmanaged and investors cannot invest in an index. Please see end of document for additional disclosures regarding indices presented.

4. Through August 31, 2022 Blackstone Alternative Investment Advisors LLC has agreed to waive its fees and/or reimburse expenses of the Fund so that certain of the Fund's expenses, together with the Fund's management fees, will not exceed 2.40% annualized. Expense Ratio represents the expense ratio applicable to investors and is comprised of the management fees, other expenses and acquired fund fees and expenses as noted in the Fund's Prospectus. The Adjusted Expense ratio represents the Expense Ratio net of Excluded Expenses. "Excluded Expenses" are expenses excluded from reimbursement by the Investment Adviser which include: (i) distribution or servicing fees, (ii) acquired fund fees and expenses, (iii) brokerage and trading costs, (iv) interest payments (including any interest expenses, commitment fees, or other expenses related to any line of credit of the Fund), (v) taxes, (vi) dividends and interest on short positions, and (vii) extraordinary expenses (in each case, as determined in the sole discretion of the Adviser). Any allocation by Blackstone to a subsidiary or other affiliate benefits The Blackstone Group Inc and any redemption or reduction of such allocation would be detrimental to The Blackstone Group Inc, creating potential conflicts of interest in allocation decisions. For a discussion of this and other conflicts, please see the Additional Disclosure section at the end of this document.

Such investments include allocations to funds managed by EJF Capital LLC, Aeolus Capital Management Ltd., PIMCO Investment Management, Saba Capital Management, L.P., Islet Management, L.P., Atreides Management, L.P., and opportunistic trades. BAIA allocations are subject to change and BAIA's fees on directly managed assets are not reduced by a payment to a sub-adviser.

Further, Blackstone, on behalf of the Fund, may determine to not employ one or more of the above-referenced, strategies or sub-strategies. Blackstone may also add new strategies or sub-strategies. Accordingly, the allocations are presented for illustrative purposes only and should not be viewed as predictive of the ongoing composition of the Fund's portfolio (and its sub-advisers), which may change at any time without notice.

ERISA Fiduciary Disclosure: The foregoing information has not been provided in a fiduciary capacity under ERISA, and it is not intended to be, and should not be considered as, impartial investment advice. If you are an individual retirement investor, contact your financial advisor or other fiduciary unrelated to BAIA about whether any given investment idea, strategy, product or service described herein may be appropriate for your circumstances.

Index Comparisons: Indices are unmanaged and investors cannot invest in an index. Indices are provided for illustrative purposes only. They have not been selected to represent appropriate benchmarks for BXMIX, but rather are disclosed to allow for comparison of BXMIX's performance to that of well-known and widely recognized indices. The indices may include holdings that are substantially different than investments held by BXMIX and do not reflect the strategy of the Fund. Comparisons to indices have limitations because indices have risk profiles, volatility, asset composition and other material characteristics that may differ from BXMIX. The indices do not reflect the deduction of fees or expenses. In the case of equity indices, performance of the indices reflects the reinvestment of dividends. Index data is obtained from unaffiliated third parties and is subject to subsequent adjustments. Blackstone makes no assurances as to the accuracy or completeness thereof.

Opinions and Trends. Opinions expressed reflect the current opinions of Blackstone as of the date appearing in the Materials only and are based on Blackstone's opinions of the current market environment, which are subject to change. Certain information contained in the Materials discusses general market activity, industry or sector trends, or other broad-based economic, market or political conditions and should not be construed as research or investment advice. There can be no assurances that any of the trends described herein will continue or will not reverse. Past events and trends do not imply, predict or guarantee, and are not necessarily indicative of, future events or results.

Important Risks: An investment in the Fund should be considered a speculative investment that entails substantial risks; you may lose part or all of your investment or your investment may not perform as well as other investments. The Fund's investments involve special risks including, but not limited to, loss of all or a significant portion of the investment due to leveraging, short-selling, or other speculative practices, lack of liquidity and volatility of returns. The following is a summary description of certain additional principal risks of investing in the Fund:

Allocation Risk - Blackstone's judgment about the attractiveness, value or market trends affecting a particular asset class, investment style, sub-adviser or security may be incorrect and this may have a negative impact upon performance. **Market Risk and Selection Risk** - One or more markets may go down in value, possibly sharply and unpredictably, affecting the values of individual securities held by the Fund. **Derivatives Risk** - the use of derivatives involves the risk that their value may not move as expected relative to the value of the relevant underlying assets, rates, or indices. Derivatives can be subject to counterparty credit risk and may entail investment exposure greater than their notional amount. **Debt Securities Risk** - investments in bonds and certain asset-backed securities are subject to risks, including but not limited to, the credit risk of the issuer of the security, the risk that the issuer undergoes a restructuring or a similar event, the risk that inflation decreases the value of assets or income from the investments, and the risk that interest rates changes adversely impact the debt investments. **Equity Securities Risk** - prices of equity and preferred securities fluctuate based on changes in a company's financial condition and overall market and economic conditions. **Mortgage- and Asset-Backed Securities Risk** - involves credit, interest rate, prepayment and extension risk, as well as the risk of default of the underlying mortgage or asset, particularly during times of economic downturn. **Multi-Manager Risk** - managers may make investment decisions which conflict with each other and as a result, the Fund could incur transaction costs without accomplishing any net investment result. **Leverage Risk** - use of leverage can produce volatility and may exaggerate changes in the net asset value of Fund shares and in the return on the portfolio, which may increase the risk that the Fund will lose more than it has invested. **Large Purchase or Redemption Risk** - large redemption or purchase activity could have adverse effects on performance to the extent that the Fund incurs additional costs or is required to sell securities, invest cash, or hold a relatively large amount of cash at times when it would not otherwise do so.

Conflicts of Interest: Blackstone and the Sub-Advisers have conflicts of interest that could interfere with their management of the Fund. These conflicts, which are disclosed in the Fund's Statement of Additional Information, include, without limitation:

Selection of Sub-Advisers. Blackstone compensates the Sub-Advisers out of the management fee it receives from the Fund. This could create an incentive for Blackstone to select Sub-Advisers with lower fee rates.

Financial Interests in Sub-Advisers and Service Providers. Blackstone, the Sub-Advisers, and their affiliates have financial interests in asset managers and financial service providers. Allocating to an affiliate (or hiring such entity as a service provider) benefits The Blackstone Group Inc. and the relevant Sub-Adviser and redemptions from an affiliate (or terminating such entity as a service provider) would be detrimental to The Blackstone Group Inc. and the relevant Sub-Adviser. For example:

- *Blackstone Strategic Alliance Advisors L.L.C. ("BSAA"), an affiliate of BAIA, manages the Strategic Alliance Funds (the "SAF Funds") that provide seed capital to emerging alternative asset managers (the "SAF Managers") in exchange for a revenue share arrangement. Seiga Asset Management Limited, a SAF Manager, is a sub-adviser to the Fund. The revenue generated for BSAA related to the Fund's investment with a SAF Manager is rebated to the Fund. The Fund will not otherwise participate in any of the economic arrangements between the SAF Funds and any SAF Manager with which the Fund invests.*

- *Blackstone Strategic Capital Advisors L.L.C. (“BSCA”), an affiliate of BAIA, manages certain funds (the “BSCA Funds”) that acquire equity interests in established alternative asset managers (the “Strategic Capital Managers”). One of the Strategic Capital Managers in which the BSCA Funds have a minority interest is Magnetar Capital Partners L.P., a control affiliate of Magnetar Asset Management LLC, a sub-adviser for the Fund. The Fund will not participate in any of the economic arrangements between the BSCA Funds and any Strategic Capital Manager with which the Fund invests.*
- *Blackstone Real Estate Special Situations Advisors L.L.C. (“BRESSA”), an affiliate of BAIA and an indirect wholly-owned subsidiary of The Blackstone Group Inc., serves as a Sub-Advisor Sub-Adviser. BRESSA invests primarily in liquid, commercial and residential real estate-related debt instruments.*
- *Blackstone Liquid Credit Strategies LLC (“BX LCS”), an affiliate of BAIA and an indirect wholly-owned subsidiary of The Blackstone Group Inc., serves as a Sub-Advisor. BX LCS invests primarily in below investment grade corporate credit.*
- *Blackstone utilizes technology offered by Arcesium LLC (“Arcesium”) to provide certain middle- and back-office services and technology to the Fund. The parent company of a Sub-Advisor owns a controlling, majority interest in Arcesium and Blackstone Alternative Asset Management L.P. owns a non-controlling, minority interest in Arcesium.*

Other Activities of Blackstone or the Sub-Advisers. The activities in which Blackstone, the Sub-Advisers, or their affiliates are involved in on behalf of other accounts may create conflicts of interest or limit the flexibility that the Fund may otherwise have to participate in certain investments. For example, if Blackstone or a Sub-Advisor comes into possession of material non-public information with respect to a company, then Blackstone or the relevant Sub-Advisor generally will be restricted from investing in securities issued by that company. Further, Blackstone generally will be restricted from investing in portfolio companies of its affiliated private equity business.

Allocation of Investment Opportunities. Blackstone and the Sub-Advisers (or their affiliates) manage other accounts and have other clients with investment objectives and strategies that are similar to, or overlap with, the investment objective and strategy of the fund, creating potential conflicts of interest in investment and allocation decisions. These conflicts of interest are exacerbated to the extent that the other clients are proprietary or pay higher fees or performance-based fees.

Glossary of Terms: **Gross Exposure:** Reflects the aggregate of long and short investment positions in relation to the net asset value. The gross exposure is one indication of the level of leverage in a portfolio. **Net Exposure:** This is the difference between long and short investment positions in relation to the net asset value. **Long Exposure:** A long position occurs when an individual owns securities. **Short Exposure:** Short selling a security not actually owned at the time of sale. Short positions can also generate returns when the price of a security declines. **Beta:** A measure of the volatility, or systemic risk, of a security or a portfolio in comparison to the market as a whole. **Alpha:** A risk-adjusted performance measure that represents the average return on a portfolio over and above that predicted by the capital asset pricing model (CAPM), given the portfolio’s beta and the average market return. More specifically, Jensen’s Measure is used to calculate alpha. **Standard Deviation:** A measure of the dispersion of a set of data from its mean. The more spread apart the data, the higher the deviation. Standard deviation is calculated as the square root of variance.

This multi-currency benchmark includes treasury, government-related, corporate and securitized fixed-rate bonds from both developed and emerging markets issuers. **Barclays US Aggregate Bond Index:** A broad base, market capitalization-weighted bond market index representing intermediate term investment grade bonds traded in the United States. **Morningstar Multistrategy Category:** Represents the average performance of mutual funds categorized as “multistrategy” funds by Morningstar, Inc. These funds allocate capital (at least 30% combined) to a mix of alternative strategies that aim to minimize exposure to traditional market risks. **S&P 500 Index:** Market-capitalization-weighted index of the 500 largest U.S. publicly traded companies. The S&P is a float-weighted index, meaning company market capitalizations are adjusted by the number of shares available for public trading.
