

Blackstone Alternative Multi-Strategy Fund (BXMIX)

Blackstone

As of May 31, 2022 unless otherwise stated.

Investment Approach

Blackstone Alternative Multi-Strategy Fund's ("Fund") investment objective is to seek capital appreciation. The Fund seeks this objective by allocating its assets among a variety of non-traditional or "alternative" investment strategies. Blackstone allocates the Fund's assets among investment sub-advisers with experience managing alternative investment strategies and among Investment Funds and also manages a portion of the Fund's assets directly. In pursuing the Fund's investment objective, Blackstone seeks to maintain an investment portfolio with, on average, lower volatility relative to the broader equity markets.

Fund Highlights

Fund assets (Mn)	\$5,011.90
Inception date	June 16, 2014
Investment advisor	Blackstone Alternative Investment Advisors, LLC
Eligible investors	US taxable & tax-exempt

Alternative Strategies Cumulative Net Performance^{1,3}

1. Performance is presented through May 31, 2022. Returns are shown net of all fees and expenses less waived expenses. Inception to date (ITD) returns for BXMIX are calculated on an annualized basis. Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance data quoted. BXMIX launched on June 16, 2014 and thus performance for June 2014 is limited to June 16 through June 30. Additional information and performance data current to the most recent month-end is available at www.bxmix.com.

2. All ITD statistics are calculated using daily performance since inception. All returns include dividend and capital gain distributions. Standard Deviation and Sharpe calculations are annualized. Beta and Alpha are measured to the respective index.

3. None of the indices presented are benchmarks or targets for the Fund. Indices are unmanaged and investors cannot invest in an index. Please see end of document for additional disclosures regarding indices presented.

4. Through August 31, 2024 Blackstone Alternative Investment Advisors LLC has agreed to waive its fees and/or reimburse expenses of the Fund so that certain of the Fund's expenses, together with the Fund's management fees, will not exceed 2.40% annualized. Expense Ratio represents the expense ratio applicable to investors and is comprised of BAI's management fee, sub-adviser fees and underlying manager fees in the case of investments in third-party managed funds and other expenses as noted in the Fund's Prospectus. BAI is paid an asset based management fee of 1.87% per annum; all sub-adviser fees are paid by BAI out of its management fee. Fees for third-party fund investments are paid by the Fund (in addition to BAI's management fee) and typically include a management fee, ranging from 0% - 2%, and a performance fee, ranging from 10% - 20%. The Adjusted Expense ratio represents the Expense Ratio net of Excluded Expenses. "Excluded Expenses" are expenses excluded from reimbursement by the Investment Adviser which include: (i) distribution or servicing fees, (ii) acquired fund fees and expenses (e.g. the fees associated with third-party investments), (iii) brokerage and trading costs, (iv) interest payments (including any interest expenses, commitment fees, or other expenses related to any line of credit of the Fund), (v) taxes, (vi) dividends and interest on short positions, and (vii) extraordinary expenses (in each case, as determined in the sole discretion of the Adviser). Please see the Fund's Prospectus at www.bxmix.com.

1. Blackstone and its affiliates have financial interests in asset managers. Any allocation by Blackstone to a subsidiary or other affiliate benefits Blackstone Inc. and any redemption or reduction of such allocation would be detrimental to Blackstone Inc., creating potential conflicts of interest in allocation decisions. For a discussion of this and other conflicts, please see the Additional Disclosure section at the end of this document.

2. BAIA manages a portion of the Fund's assets directly. Such investments include allocations to funds managed by Moma Advisors A/S, Aeolus Capital Management Ltd., PIMCO Investment Management, Islet Management, LP., Atrides Management, LP., and opportunistic trades. BAIA allocations are subject to change and BAIA's fees on directly managed assets are not reduced by a payment to a sub-adviser.

Avg. Return for Days When Bonds were Down^{5,6}

Performance is presented since BXMIX's inception on 6/16/2014 to 5/31/2022. Comparisons will differ, in some cases significantly, if the relative performance is measured over the course of a month, quarter, year or longer. Because of the broadly diversified and low beta nature of the portfolio, BXMIX is not expected to participate in the full upside of broader markets. None of the indices presented are benchmarks or targets for the Fund. Indices are unmanaged and investors cannot invest in an index. Please see end of document for additional disclosures regarding indices presented.

Performance data quoted represents past performance and is no guarantee of future results. Investment returns and principal values may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. BXMIX launched on June 16, 2014 and thus performance for June 2014 is limited to June 16 through June 30. Information about BXMIX, including current month-end performance, is available on BXMIX's website at www.bxmixon.com or by calling 855-890-7725.

- Sub-strategy returns are shown gross of all fees and expenses. All statistics are calculated using daily performance since inception. Performance attribution represents the contribution of each sub-strategy to the Fund's total return.
- Portfolio allocations include exposure to certain BAIA-Direct investments. Equity allocation includes Equity Long/Short and Equity Market Neutral sub-strategies, funds managed by Atreides Management LP and Islet Management LP, and equity hedges. Credit allocation includes Fixed Income – Asset Backed and Distressed/Restructuring sub-strategies, and opportunistic credit trades. Multi-Asset is comprised of Discretionary Thematic, Risk Arbitrage, Multi-Strategy, and Commodity Energy sub-strategies, and funds managed by Aeolus Capital Management Ltd, PIMCO Investment Management LLC, and MOMA Advisors A/S. Sub-strategy allocations exclude exposures to Fund level cash, hedging and expenses and are adjusted pro-rata to equal 100%. Allocations may change at any time without notice.
- Fund level expenses cannot show net expenses given the fact expenses are incurred at the fund level and are not allocated across individual sub strategies.
- "Stocks" refers to the S&P 500. From 6/16/2014 to 5/31/2022, there were 906 days in which the S&P 500 was down and 1099 days in which the S&P 500 was up or flat. During this period, on days that the S&P 500 was up, the average daily returns for the S&P 500, MSCI World and BXMIX were 6.06%, 4.40% and 0.21%, respectively.
- Material differences in strategies, investment teams, and market conditions between funds being marketed and funds presented in the track record may exist.
- "Bonds" refers to the Barclays Global Agg. From 6/14/2014 to 5/31/2022, there were 1002 days in which the Barclays Global Agg was down and 1068 days in which the Barclays Global Agg was up or flat. During this period, on days that the Barclays Global Agg was up, the average daily returns for the Barclays Global Agg, and BXMIX were 1.11% and -0.09%, respectively.

Additional information and current performance data is available at www.bxmixon.com.

Important Disclosure Information

This material is not an offer to sell the Fund's securities and is not soliciting an offer to buy the Fund's securities. All investors should consider the investment objectives, risks, charges and expenses of BXMIX, Class I carefully before investing. All investors are urged to carefully read the prospectus and the summary prospectus in its entirety before investing. The prospectus and the summary prospectus contain this and other information about BXMIX and are available on BXMIX's website at www.bxmix.com.

Please note that additional details concerning the Fund's performance, liquidity and asset class exposures are available upon request.

Please contact your BAAM representative for further information.

No Assurance of Investment Return. Performance data quoted represents past performance and is no guarantee of future results. Investment returns and principal values may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. All returns include dividend and capital gain distributions. There can be no assurance that the Fund will achieve its goals or avoid losses. Diversification does not ensure a profit or guarantee against loss. Information about the Fund, including current month-end performance, is available on the Fund's website at www.bxmix.com or by calling 855-890-7725.

Allocations: The Fund may shift allocations among sub-advisers, strategies and sub-strategies at any time. Further, Blackstone, on behalf of the Fund, may determine to not employ one or more of the above-referenced, strategies or sub-strategies. Blackstone may also add new strategies or sub-strategies. Accordingly, the allocations are presented for illustrative purposes only and should not be viewed as predictive of the ongoing composition of the Fund's portfolio (and its sub-advisers), which may change at any time without notice.

ERISA Fiduciary Disclosure: The foregoing information has not been provided in a fiduciary capacity under ERISA, and it is not intended to be, and should not be considered as, impartial investment advice. If you are an individual retirement investor, contact your financial advisor or other fiduciary unrelated to BAIA about whether any given investment idea, strategy, product or service described herein may be appropriate for your circumstances.

Index Comparisons: Indices are unmanaged and investors cannot invest in an index. Indices are provided for illustrative purposes only. They have not been selected to represent appropriate benchmarks for BXMIX, but rather are disclosed to allow for comparison of BXMIX's performance to that of well-known and widely recognized indices. The indices may include holdings that are substantially different than investments held by BXMIX and do not reflect the strategy of the Fund. Comparisons to indices have limitations because indices have risk profiles, volatility, asset composition and other material characteristics that may differ from BXMIX. The indices do not reflect the deduction of fees or expenses. In the case of equity indices, performance of the indices reflects the reinvestment of dividends. Index data is obtained from unaffiliated third parties and is subject to subsequent adjustments. Blackstone makes no assurances as to the accuracy or completeness thereof.

Opinions and Trends. Opinions expressed reflect the current opinions of Blackstone as of the date appearing in the Materials only and are based on Blackstone's opinions of the current market environment, which are subject to change. Certain information contained in the Materials discusses general market activity, industry or sector trends, or other broad-based economic, market or political conditions and should not be construed as research or investment advice. There can be no assurances that any of the trends described herein will continue or will not reverse. Past events and trends do not imply, predict or guarantee, and are not necessarily indicative of, future events or results.

Important Risks: An investment in the Fund should be considered a speculative investment that entails substantial risks; you may lose part or all of your investment or your investment may not perform as well as other investments. The Fund's investments involve special risks including, but not limited to, loss of all or a significant portion of the investment due to leveraging, short-selling, or other speculative practices, lack of liquidity and volatility of returns. The following is a summary description of certain additional principal risks of investing in the Fund:

Allocation Risk - Blackstone's judgment about the attractiveness, value or market trends affecting a particular asset class, investment style, sub-adviser or security may be incorrect and this may have a negative impact upon performance. **Market Risk and Selection Risk** - One or more markets may go down in value, possibly sharply and unpredictably, affecting the values of individual securities held by the Fund. **Derivatives Risk** - the use of derivatives involves the risk that their value may not move as expected relative to the value of the relevant underlying assets, rates, or indices. Derivatives can be subject to counterparty credit risk and may entail investment exposure greater than their notional amount. **Debt Securities Risk** - investments in bonds and certain asset-backed securities are subject to risks, including but not limited to, the credit risk of the issuer of the security, the risk that the issuer undergoes a restructuring or a similar event, the risk that inflation decreases the value of assets or income from the investments, and the risk that interest rates changes adversely impact the debt investments. **Equity Securities Risk** - prices of equity and preferred securities fluctuate based on changes in a company's financial condition and overall market and economic conditions. **Mortgage- and Asset-Backed Securities Risk** - involves credit, interest rate, prepayment and extension risk, as well as the risk of default of the underlying mortgage or asset, particularly during times of economic downturn. **Multi-Manager Risk** - managers may make investment decisions which conflict with each other and as a result, the Fund could incur transaction costs without accomplishing any net investment result. **Leverage Risk** - use of leverage can produce volatility and may exaggerate changes in the net asset value of Fund shares and in the return on the portfolio, which may increase the risk that the Fund will lose more than it has invested. **Large Purchase or Redemption Risk** - large redemption or purchase activity could have adverse effects on performance to the extent that the Fund incurs additional costs or is required to sell securities, invest cash, or hold a relatively large amount of cash at times when it would not otherwise do so.

Epidemics/Pandemics. Certain countries have been susceptible to epidemics which may be designated as pandemics by world health authorities, most recently COVID-19. The outbreak of such epidemics, together with any resulting restrictions on travel or quarantines imposed, has had and will continue to have a negative impact on the economy and business activity globally (including in the countries in which the Funds invest), and thereby is expected to adversely affect the performance of the Funds' Investments. Furthermore, the rapid development of epidemics could preclude prediction as to their ultimate adverse impact on economic and market conditions, and, as a result, presents material uncertainty and risk with respect to the Funds and the performance of their Investments.

Russian Invasion of Ukraine. On February 24, 2022, Russian troops began a full-scale invasion of Ukraine and, as of the date of this Material, the countries remain in active armed conflict. Around the same time, the United States, the United Kingdom, the European Union, and several other nations announced a broad array of new or expanded sanctions, export controls, and other measures against Russia, Russia-backed separatist regions in Ukraine, and certain banks, companies, government officials, and other individuals in Russia and Belarus. The ongoing conflict and the rapidly evolving measures in response could be expected to have a negative impact on the economy and business activity globally (including in the countries in which the Fund invests), and therefore could adversely affect the performance of the Fund's investments. The severity and duration of the conflict and its impact on global economic and market conditions are impossible to predict, and as a result, could present material uncertainty and risk with respect to the Fund and the performance of its investments and operations, and the ability of the Fund to achieve its investment objectives. Similar risks will exist to the extent that any portfolio entities, service providers, vendors or certain other parties have material operations or assets in Russia, Ukraine, Belarus, or the immediate surrounding areas.

Conflicts of Interest: Blackstone and the Sub-Advisers have conflicts of interest that could interfere with their management of the Fund. These conflicts, which are disclosed in the Fund's Statement of Additional Information, include, without limitation:

Selection of Sub-Advisers. Blackstone compensates the Sub-Advisers out of the management fee it receives from the Fund. This could create an incentive for Blackstone to select Sub-Advisers with lower fee rates.

Financial Interests in Sub-Advisers and Service Providers. Blackstone, the Sub-Advisers, and their affiliates have financial interests in asset managers and financial service providers. Allocating to an affiliate (or hiring such entity as a service such entity as a service provider) would be detrimental to The Blackstone Group Inc. and the relevant Sub-Adviser. For example:

- Blackstone Strategic Alliance Advisors L.L.C. ("BSAA"), an affiliate of BAIA, manages the Strategic Alliance Funds (the "SAF Funds") that provide seed capital to emerging alternative asset managers (the "SAF Managers") in exchange for a revenue share arrangement. Seiga Asset Management Limited, a SAF Manager, is a sub-adviser to the Fund. The revenue generated for BSAA related to the Fund's investment with a SAF Manager is rebated to the Fund. The Fund will not otherwise participate in any of the economic arrangements between the SAF Funds and any SAF Manager with which the Fund invests.
- Blackstone Strategic Capital Advisors L.L.C. ("BSCA"), an affiliate of BAIA, manages certain funds (the "BSCA Funds") that acquire equity interests in established alternative asset managers (the "Strategic Capital Managers"). One of the Strategic Capital Managers in which the BSCA Funds have a minority interest is Magnetar Capital Partners L.P., a control affiliate of Magnetar Asset Management LLC, a sub-adviser for the Fund. The Fund will not participate in any of the economic arrangements between the BSCA Funds and any Strategic Capital Manager with which the Fund invests.
- Blackstone Real Estate Special Situations Advisors L.L.C. ("BRESSA"), an affiliate of BAIA and an indirect wholly-owned subsidiary of Blackstone Inc., serves as a Sub-Advisor Sub-Adviser. BRESSA invests primarily in liquid, commercial and residential real estate-related debt instruments.
- Blackstone Liquid Credit Strategies LLC ("BX LCS"), an affiliate of BAIA and an indirect wholly-owned subsidiary of Blackstone Inc., serves as a Sub-Advisor. BX LCS invests primarily in below investment grade corporate credit.
- Blackstone utilizes technology offered by Arcesium LLC ("Arcesium") to provide certain middle- and back-office services and technology to the Fund. The parent company of a Sub-Advisor owns a controlling, majority interest in Arcesium and Blackstone Alternative Asset Management L.P. owns a non-controlling, minority interest in Arcesium.

Other Activities of Blackstone or the Sub-Advisers. The activities in which Blackstone, the Sub-Advisers, or their affiliates are involved in on behalf of other accounts may create conflicts of interest or limit the flexibility that the Fund may otherwise have to participate in certain investments. For example, if Blackstone or a Sub-Adviser comes into possession of material non-public information with respect to a company, then Blackstone or the relevant Sub-Adviser generally will be restricted from investing in securities issued by that company. Further, Blackstone generally will be restricted from investing in portfolio companies of its affiliated private equity business.

Allocation of Investment Opportunities. Blackstone and the Sub-Advisers (or their affiliates) manage other accounts and have other clients with investment objectives and strategies that are similar to, or overlap with, the investment objective and strategy of the fund, creating potential conflicts of interest in investment and allocation decisions. These conflicts of interest are exacerbated to the extent that the other clients are proprietary or pay higher fees or performance-based fees.

Glossary of Terms: **Gross Exposure:** Reflects the aggregate of long and short investment positions in relation to the net asset value. The gross exposure is one indication of the level of leverage in a portfolio. **Net Exposure:** This is the difference between long and short investment positions in relation to the net asset value. **Long Exposure:** A long position occurs when an individual owns securities. **Short Exposure:** Short selling a security not actually owned at the time of sale. Short positions can also generate returns when the price of a security declines. **Beta:** A measure of the volatility, or systemic risk, of a security or a portfolio in comparison to the market as a whole. **Alpha:** A risk-adjusted performance measure that represents the average return on a portfolio over and above that predicted by the capital asset pricing model (CAPM), given the portfolio's beta and the average market return. More specifically, Jensen's Measure is used to calculate alpha. **Standard Deviation:** A measure of the dispersion of a set of data from its mean. The more spread apart the data, the higher the deviation. Standard deviation is calculated as the square root of variance.

Glossary of Indices: Market indices obtained through Bloomberg, HFR Asset Management, MSCI and Morningstar, as applicable. **MSCI World TR:** Market capitalization weighted index designed to provide a broad measure of large and mid-cap equity performance across 23 developed markets countries. **HFRX Global Hedge Fund Index:** Designed to be representative of the overall composition of the hedge fund universe. It is comprised of all eligible hedge fund strategies falling within four principal strategies: equity hedge, event driven, macro/CTA, and relative value arbitrage. Strategies are asset weighted based on the distribution of assets in the hedge fund industry. **Barclays Global Aggregate Bond Index TR:** Flagship measure of global investment grade debt from twenty-four local currency markets. This multi-currency benchmark includes treasury, government-related, corporate and securitized fixed-rate bonds from both developed and emerging markets issuers. **Barclays US Aggregate Bond Index:** A broad base, market capitalization-weighted bond market index representing intermediate term investment grade bonds traded in the United States. **Morningstar Multistategy Category:** Represents the average performance of mutual funds categorized as "multistategy" funds by Morningstar, Inc. These funds allocate capital (at least 30% combined) to a mix of alternative strategies that aim to minimize exposure to traditional market risks. **S&P 500 Index:** Market-capitalization-weighted index of the 500 largest U.S. publicly traded companies. The S&P is a float-weighted index, meaning company market capitalizations are adjusted by the number of shares available for public trading.

None of the indices presented are benchmarks or targets for the Fund. Indices are unmanaged and investors cannot invest in an index.

Opinions expressed reflect the current opinions of BAIA as of the date of the report only.
